Danielle,

I have the approval, I have already spoken to Enforcement Electronics and they are expecting the instrument. If you could please send that to Enforcement Electronics, it would be a great help. Thank You so much for all of your assistance.

Danielle,

I am awaiting approval from my LT to send the instrument to Enforcement Electronics. I will let you know as soon as possible that it is ok to ship it. Thank you for getting back to me.

Good afternoon,

I am sorry for the delay of inspecting your instrument. I have determined that although your instrument IS reading alcohol concentrations accurately and reliably, the R-Value (which is part of the flow determinations) is fluctuating dramatically. This needs to be corrected in order for me to send the instrument back to you. This is not something I can do. Please let me know where you would like me to ship the instrument for repairs (CMI or Enforcement Electronics). (You may be able to tell the repair facility that you need a quick turnaround and get them to get you the quote asap so you can get the payment approved and the repair made quickly.) Hopefully, we can get this accomplished and get it back to me in time to inspect it prior to my leave. If you are getting the Indian River instrument, the faster I receive it, the faster I can get it registered and get an instrument to you for use.

Thanks,

Danielle M. Bell
