FDLE
Alcohol Testing Program

On April 21st, 2016 the Alcohol Testing Program's work facility was left unlocked for several hours during the night. It was one internal side door leading to another separate but secure agency. One evidentiary instrument was in the ATP work area, serial number 80-001232. There was no evidence that the instrument was in any way tampered with or disturbed. However, in an overabundance of caution the instrument was re-inspected and found once again to be operating in accordance to 11D-8, F.A.C.
