Pat,

As discussed, here is the April 2017 Agency Inspection Report for instrument #80-000949 registered to Tallahassee PD. This instrument is being removed from evidentiary service for its annual Department Inspection, however, I incorrectly noted in the remarks section during my inspection that it was being *returned* to evidentiary service. The amended Agency Inspection Report is attached with this email for FDLE records. Please let me know if you have any questions. Thank you!
