Sorry I should have thought to send this to you last week.

Have a good week.

Thanks,

Robert

I'm sorry. I thought I had included this, but clearly, I did not. If you would, please send me copies (can be scanned) after you make the additional corrections.

Thanks,

Danielle

Thank you, I'll complete the corrections.

Thanks again,

Robert

2 things:

On the inspection where you inadvertently ended the inspection, please single line mark through the x where it "complies" and mark the space indicating that it does not. Then initial and date the correction.

On the inspection where you repeated the 0.05 solution, please indicate what you did to improve the values prior to repeating that test.

If you have any questions about how to document this or what needs to be completed, feel free to give me a call.

Thanks,

Danielle

Subject: Agency Inspection error

Ms. Bell,

Good morning.

I was conducting our agency inspection this morning. After completing the .080 testing the instrument asked me if it was in compliance. Thinking it was asking about the test that just took place, I hit yes, then realized it didn't complete the .20 test or the 0.08 dry gas test. By this time it printed out the inspection report and tried to send the report in which it failed then went right back to the sign on screen for the inspector.

I am in the process of conducting another inspection on the instrument and wanted to give you a heads up on my situation.

Instrument Serial # - 80-001060

Thank you,

Robert
