Subject: Intoxilyzer 80-001208

EE - Thank You

Ms. Platt,

Intoxilyzer 80-001208 is being sent to Enforcement Electronics in Lakeland.

I administered the monthly inspection, but it would not print it.

I went to recall and it showed there were no breath tests or Agency Inspections.

I redid the Inspection, and again it would not print, so I sent everything to FDLE and that worked, giving me the OK.

I am sending the instrument to Enforcement Electronics.

Lastly would you please send me a copy of the monthly inspection or both if you have them on the computer.

Thank you for your time in this matter.
