Attachments: July 2018 Agency Inspections.pdf

Good Afternoon,

Attached are the July 2018 Agency Inspections for the Hernando County Sheriff's Office.

Instrument 814 was inspected with no issues to report. Instrument 814 is currently being utilized as our back-up instrument.

Instrument 812 was inspected with no issues to report.

Instrument 5249 was inspected with no issues to report. While conducting the inspection on Instrument 5249, the incorrect simulator was attached during the alcohol free test. This resulted in a retest being required with the correct simulator attached. The instrument completed the test with no issues. Instrument 5249 is currently being utilized as our primary instrument.

All of our simulators have been calibrated by TechSource and we are now on a one year calibration cycle for our simulators. All of our simulators will be recalibrated by August.

If I can be of additional assistance, please do not hesitate to contact me.

Respectfully,
Sgt. B. Collito

Good Morning,

Attached are the June 2018 Agency Inspections for the Hernando County Sheriff's Office.

Instrument 814 was inspected with no issues to report. Instrument 814 was just received from FDLE upon completion of its annual inspection. Copies of the annual inspection are attached. Instrument 814 is currently being utilized as our back-up instrument.

Instrument 812 was inspected with no issues to report.

Instrument 5249 was inspected with no issues to report. Instrument 5249 is currently being utilized as our primary instrument.

One RFI detect occurred during a breath test due to a wireless microphone being on during the breath test. Staff have been reminded of the importance of turning all communication devices off prior to entering the Breath Test Unit.

All of our simulators have been calibrated by TechSource and we are now on a one year calibration cycle for our simulators. We have begun sending our simulators to TechSource this month to begin recalibration. All of our simulators will be recalibrated by August.

If I can be of additional assistance, please do not hesitate to contact me.

Respectfully,
Sgt. B. Collito

Good Morning,

Attached are the April 2018 Agency Inspections for the Hernando County Sheriff's Office.

Instrument 812 was inspected with no issues to report. Instrument 812 is being sent to FDLE for its annual inspection.

Instrument 814 was inspected with no issues to report. 814 is currently being utilized as our back up instrument.

Instrument 5249 was sent to FDLE for its Annual Inspection in January. Instrument 5249 needed repairs to the Dry Gas Cylinder sensor and those repairs have been completed. The annual inspection was completed by FDLE and the instrument has been received by us, an inspection has been completed, and the instrument has been returned to service.

One RFI detect occurred during a breath test due to a portable radio accidentally transmitting during the test. The second RFI detect occurred during the inspection, also due to a portable radio transmitting during the inspection. Staff have been reminded of the importance of turning all communication devices off prior to entering the Breath Test Unit.

Good Morning,

Attached are the March 2018 Agency Inspections for the Hernando County Sheriff's Office.

Instrument 812 was inspected with no issues to report. 812 is currently being utilized as our backup instrument. During the inspection process, the Dry Gas Cylinder hose was disconnected. The hose was reconnected and successfully completed the test.

Instrument 814 was inspected with no issues to report. 814 is currently being utilized as our primary instrument.

Instrument 5249 was sent to FDLE for its Annual Inspection in January. Instrument 5249 needed repairs to the Dry Gas Cylinder sensor and is currently at CMI, Inc. awaiting service.

No other RFI detects have occurred during any breath tests or inspections during this inspection period.

All of our simulators have been calibrated by TechSource and we are now on a one year calibration cycle for our simulators. We will begin sending our simulators to TechSource beginning this month to begin recalibration.

If I can be of additional assistance, please do not hesitate to contact me.

Good Afternoon,

Attached are the January 2018 Agency Inspections for the Hernando County Sheriff's Office.

Instrument 812 was inspected with no issues to report. During the first attempted 0.08g/210L Test, the instrument recorded a sample of 0.069 which is below the acceptable tolerance. I tightened the head on the simulator and the instrument successfully passed the inspection. 812 is currently being utilized as our backup instrument.

Instrument 814 was received from FDLE after receiving repairs at CMI and having its 2018 Annual Inspection completed by FDLE. The instrument passed inspection and is currently being utilized as our primary instrument

Instrument 5249 was inspected with no issues to report. 5249 is being sent to FDLE for its Annual Inspection.

No other RFI detects have occurred during any breath tests or inspections during this inspection period.

All of our simulators have been calibrated by TechSource and we are now on a one year calibration cycle for our simulators.
