ALCON,

The monthly Agency Inspection Report conducted 08/02/2019 on the following instruments;  
80-000966, 80-000968, 80-001715, 80-003935, 80-003937, 80-004587 and 80-005935.

Ref to instrument 80-005937, Interferent Detect Test; I did not connect the simulator. Simulator was connected and the instrument was re-tested, not re-started. The re-test results are within standards.

Ref to instrument 80-004587, 0.05g/210L Test; I did not connect the simulator. Simulator was connected and the instrument was re-tested, not re-started. The re-test results are within standards.

All intox inspections are complete and in compliance with 11D-8.

Dan, you can send it to me first. I can check it out. I may be a breath tube. If so, I can change that out.

Subject: Monthly Intox Inspection.

TJ,

I was conducting the monthly intox inspections last night.

I had instrument 80-000966 failed to come out of Not Ready Mode.

I conducted a diagnostic check and received a Temperature Regulation Test Fail.

I just received the instrument back from CMI and placed it back into service on 05/15/19.

I have taken it out of service.

Do in need to send it to you or CMI.

Thanks

Dan

ALCON,

Agency Inspection Report conducted 06/11/2019 on the following instruments;  
80-000966, 80-000968, 80-001715, 80-003935, 80-003937, 80-004587 and 80-005935.

Ref to instrument 80-000966, I received an Temperature Regulation Test Fail during the Diagnostic test. I conducted a second check to confirm the same result. I removed the instrument from service and it will be forwarded to FDLE in the morning for evaluation and repairs.

Ref to instrument 80-003937, 0.08g/210L Test, received an outside control tolerance reading. I confirmed the simulator temperature and tighten the lid to the simulator and re-tested. The re-test results are with in standards. The inspection was not Re-Started.

Ref to instrument 80-004587, 0.08g/210L Test, received an outside control tolerance reading for AF/MA. Provided MA breath showed a breath result. Rinsed mouth alcohol and re-tested. The re-test results are with in standards. The inspection was not Re-Started.

Ref to the 0.08g/210L Dry Gas Std Test, received an outside control tolerance reading. I failed to connect the dry gas hose prior to starting the test. I connected the hose and re-tested. The re-test results are with in standards. The inspection was not Re-Started.

Ref to instrument 80-005935, the 0.08g/210L Dry Gas Std Test, received an outside control tolerance reading. I failed to connect the dry gas hose prior to starting the test. I connected the hose and re-tested. The re-test results are with in standards. The inspection was not Re-Started

All intox inspections are complete and in compliance with 11D-8.

TJ,

I respectfully request that the registration of evidentiary breath test instruments currently assigned to the Agency, Osceola County Sheriff's Office, be corrected and listed as that.

The Osceola Sheriff's Office has been the primary responsible agency for evidentiary breath tests since the county assumed duties and responsibilities of corrections from the Sheriff's Office.

We currently have 7 instruments assigned to the agency, with 3 Registration forms showing the primary owner as Osceola County Corrections.

I have attached the registration forms for all 7 instruments assigned and request that registration forms for instruments 80-000966, 80-000968 and 80-001715 be corrected to show the owner to be the Osceola County Sheriff's Office.

Thank you

V/R

Dan,

I received this instrument back from CMI. I have completed the annual inspection and it is ready to ship today. I spoke with the other Dan yesterday, and he said I could change the agency information from Osceola Corrections to Osceola County SO. I have done that, but Dr. Kirkland would like us to have a request in writing to change the agency name before he issues a new instrument Registration. Will you please send me a request to update the registration for this instrument when you have time?

Thanks.

ALCON,

Agency Inspection Report conducted 01/06/2019 on the following instruments;  
80-000966, 80-000968, 80-001715, 80-003935, 80-003937, 80-004587 and 80-005935.

Ref to instrument 80-000966, The Alcohol Free Subject Test: showed a 0.009, due to residual mouth alcohol from the previous Mouth Alcohol test. The test was completed and noted as not within standards. The instrument was re-tested and the results are with in standards.

Ref to instrument 80-000968, AF/MA initial reading of SNM for AF. Re-tested, Had another Deputy provide AF. The re-test results are with in standards

Ref to instrument 80-003937, 0.05g/210L Test, re-set lid to simulator, re-tested. 0.20g/210L Test, re-set lid to simulator. The re-test results are with in standards. The inspection was not Re-Started.

Instruments 80-000968 and 80-003937 have been sent off to FDLE for Annual inspections.

All intox inspections are complete and in compliance with 11D-8.
