

Giri Vasudevan, Director, Enterprise Data Management, Florida Department of Children and Families

Giri Vasudevan joined the Florida Department of Children and Families (DCF) in August 2021, where he currently serves as the Director of Enterprise Data Management. In this position, he is responsible for the oversight and development of the organization's Enterprise Data Warehouse, Master Data Management, Data Synchronization, Data Integration, and various enterprise data applications and reports. Additionally, Mr. Vasudevan is charged with evaluating and implementing SaaS/low-code no-code platforms to ensure that the organization has access to the most efficient and effective tools.

Mr. Vasudevan is a seasoned professional with over 25 years of experience in both the public and private sectors. His expertise includes IT project management, strategic planning, software solutions, and database architecture. He holds a bachelor's degree in Computer Engineering and has achieved certification as a Project Management Professional (PMP) and Azure Data Engineer Associate, as well as AWS Developer Associate. Throughout his career, Mr. Vasudevan has held various roles in large-scale, complex applications. Before joining DCF, Mr. Vasudevan worked as a System Programming Administrator at the Florida Department of Education where he managed a diverse portfolio of Florida higher education scholarships, including the prestigious Bright Future program.
