## EXECUTIVE SUMMARY

**D**uring 2013, thousands of children around the State of Florida benefited from Drug Abuse Resistance Education (D.A.R.E.), the highly acclaimed program that empowers kids and gives them the tools and skills needed to make **safe and healthy choices** in life.

D.A.R.E. continues to be a law enforcement officer-led series of classroom lessons that teach children from kindergarten through high school how to make good decisions and wise choices. The curricula cover a wide range of risks that our children face daily, including drug use. The lessons are arranged in a scaffolding process, starting with basics about responsibility and decision making and then continuing with identifying risks and consequences, peer pressure, dealing with stressful situations, basics of communication, non-verbal communication and effective listening skills. Also included are lessons on bullying and how to be a good citizen in their community.

The curricula meet multiple National Common Core Standards, which assures teachers, parents and school administrators that they can be confident of the accountability of the program and its instruction.

To remain relevant, effective and compelling, the curricula and instruction require D.A.R.E. to have regular review, and substantive contributions, from highly respected experts in the field of education, science and law enforcement. More importantly, it requires the approval of the program's audience — **teachers and students**. On pages 16 and 17, you will read this year's winning essay in our elementary school competition. The sentiments expressed in the essay by contest winner Jasmine Hopkins illustrate the impact that lessons taught through the D.A.R.E. curricula have on the lives of young people.

Our 2013 Florida D.A.R.E. Officer Training held in June in Naples, Florida was our largest D.A.R.E. officer training ever, and was recognized by D.A.R.E. America as their largest individual class this year. In 2013, the number of certified D.A.R.E. instructors in Florida increased from 168 in 2012 to 178, a six percent increase. While there were fewer active agencies in 2013 (50) when compared to 2012 (56), the number of elementary and middle schools that received instruction in the D.A.R.E. curricula increased by 13 percent. It is clear that D.A.R.E. in the state of Florida is still strong, and is regaining momentum as an important tool for protecting our children.

## FROM THE DESK OF...

### *Florida's D.A.R.E. Statewide Coordinator*

**S**ince the December 2012 tragedy in Newtown, Connecticut, there has been a strong response from the public for more law enforcement officers in our schools. Currently, many of our middle and high schools have School Resource Officers assigned to them, and now many jurisdictions are in the process of putting officers in the elementary schools. Placing a law enforcement officer in schools (elementary, middle and high) has positive outcomes — the officer is able to deliver prevention programs to the students, while also serving as a visible deterrent to criminals. The use of law enforcement officers as instructors of prevention programs has the potential to not only improve the effectiveness of these programs, but also to help create and sustain a more positive image of law enforcement, and abate the negative image of law enforcement that is held by many adolescents.

One such prevention program is the D.A.R.E. program. Collaborative efforts among law enforcement, education and prevention science have distinguished the D.A.R.E. program. In 2013, we emphasized that D.A.R.E. in Florida is much more than a drug prevention program; this year, we dedicated our efforts to training and certifying all of our State of Florida D.A.R.E. officers in the new D.A.R.E. *keepin' it REAL elementary curriculum*. The theme of this curriculum is to provide our children with the resources and skills needed to make *safe and healthy choices* in their daily decision making. The curriculum is designed so that students have opportunities to develop competency in using the skills learned. The lessons teach young children the skills they need to accomplish goals, and include information on how to assess the risks and consequences of their behaviors and make safe and responsible choices. They are taught about communicating with others, as well as giving and getting help. The lessons also address the many challenges facing our elementary school-aged youth, including relationships, school work, and drugs. Three of our ten lessons emphasize the identification and proper responses to the ever growing problem of bullying in our society. The students respond well to this topic since there are very few kids who have not been affected by this problem, and our programs give them tools to help them understand bullying and ways to combat it.

It has been refreshing to experience the enthusiasm and commitment that our Florida D.A.R.E. officers and their respective agencies have shown this year towards the new curriculum. It was also very exciting and challenging this year to deliver the 2013 D.A.R.E. Officer Training course. Forty-three law enforcement officers and deputies were trained and certified at this training and D.A.R.E. America reported that it was one of the largest training programs that they have had this year. We are anticipating another strong response at the 2014 training scheduled for June.

We are excited that 2014 will allow Florida to continue our focus on the development of our children in areas of importance — education, character building, health issues and our children's security. Those of us in law enforcement and D.A.R.E. are ready and prepared to respond and offer a proven and cost effective answer to these concerns.

## D.A.R.E.: MUCH MORE THAN A DRUG PREVENTION PROGRAM

**F**acing unparalleled drug abuse among our youth in the 1970's and early 1980's, visionary Los Angeles Police Chief Daryl Gates and the Los Angeles Unified School District launched an unprecedented and innovative substance abuse prevention education program in 1983 — D.A.R.E. With each passing year, D.A.R.E.'s success was seen in classrooms and homes, leading to rapid growth and expansion.

Today, D.A.R.E. is much more than a drug prevention program. D.A.R.E. is a collaborative effort of the essential components of a community: students, parents, schools, law enforcement and community leaders.

Kids today grow up in a complex and confusing world. The D.A.R.E. mission is, "Teaching students good decision-making skills to help them lead safe and healthy lives." They're our kids... our future. We want their futures to be bright, secure, healthy and safe.

The D.A.R.E. curricula incorporate the following innovative prevention science and research-based strategies designed to improve student skills and outcomes:

- Offer a science-based education built around principles of prevention;
- Utilize active learning;
- Target communication and refusal skills;
- Teach decision-making skills throughout lessons;
- Promote accurate normative beliefs;
- Support positive peer influence;
- Promote high self-efficacy;
- Create a working knowledge of risk;
- Develop healthy attitudes;
- Use specially trained officers;
- Are community-based programs; and
- Meet National Health Education Standards.

Prevention research has continually shown that no one is more important in a child's life than his or her parents. Unfortunately, many parents either do not understand or lack the skills and knowledge to protect their children from destructive behavior. Consequently, parents, as well as their children, need a solid education and parents need training regarding how to help their children make positive, healthy choices.

Having a D.A.R.E officer teaching in the classroom is an investment that pays dividends every day in healthy kids, healthy communities and a healthy world. Under the D.A.R.E program, trained law enforcement officers work with educators to support safe schools and healthy students.

***"...nothing is of more importance for the public weal than to form and train up youth in wisdom and virtue."***

*— Benjamin Franklin*

## D.A.R.E.'s EDUCATION PROGRAMS

### **Kindergarten — 4th Grade lessons**

Students are introduced to age and developmentally appropriate lessons relative to personal safety concepts. Life skill strategies regarding decision-making, assertiveness, anger management and conflict resolution are woven into lessons, wherein students learn to recognize and exhibit good choices and behaviors regarding potential dangers in the use of alcohol, tobacco and illicit drugs, misuse of medicine, involvement in violence, and other high risk situations.

### **Elementary Curriculum — 5th Grade lessons**

The D.A.R.E.'s keepin' it REAL Elementary Curriculum is based on the Socio-Emotional Learning (SEL) Theory. SEL identifies fundamental, basic skills and developmental processes needed for healthy development including:

- Self-awareness and management
- Responsible decision making
- Understanding others
- Relationship and communication skills
- Handling responsibilities and challenges

The curriculum uses this theory to teach youth to control their impulses and think about risks and consequences resulting in more responsible choices. D.A.R.E. believes that if you can teach youth to make safe and responsible decisions, they will be guided to healthy choices, not only about drugs, but across all parts of their lives.

### **Family Talk — Take Home Activities**

The D.A.R.E. Family Talk activities are designed to promote adult involvement in development of their child's abilities and skills to resist becoming involved with illicit drug use and other high risk behaviors. The take home activities enhance five D.A.R.E. lessons with the goal of each student "teaching" their families what they learned. The activity sheets are distributed at the end of the class, with instructions to students to enjoy sharing the lesson with their family.

### **Middle School/Junior High Curriculum — 6th-8th Grade Lessons**

This culturally grounded prevention curriculum has been proven effective in reducing student drug use and establishing anti-drug attitudes and beliefs. The program teaches and enhances life skills such as decision-making, refusal skills,

communication and drug-resistant strategies. Ideally it acts as a refresher and re-emphasis to the D.A.R.E. Elementary Curriculum. This curriculum is cited on the SAMHSA National Registry of Evidence-based Programs and Practices.

### **Senior High Curriculum**

The aim of the senior high school D.A.R.E. project is to extend the information and reinforce the skills students need to enable them to act in their own best interest when facing high-risk, low-gain choices, and to resist peer pressure and other influences in making their personal choices. Equal emphasis is placed on helping students to recognize and cope with feelings of anger, without causing harm to themselves or others, and without resorting to violence or the use of alcohol and drugs.

### **Curricular Enhancement Lessons**

As relevant topics arise, D.A.R.E. creates and implements pertinent "enhancement" lessons. The lessons are based upon the design and scientific foundation of the source curricula, and seamlessly complement those curricula. When developed, D.A.R.E. Enhancement Lessons are implemented as K-12 and community education components. The "enhancement" lesson concept allows for rapid curricular response to emerging issues, and permits communities flexibility to customize their D.A.R.E. program to attend to local needs.

"Enhancement" lessons have been developed for:

- Methamphetamine
- Prescription/Over-the-Counter Drug Abuse
- Bullying
- Cyber Bullying
- Gangs
- Internet Safety

### **Community Education Program**

Recognizing the vital role adults play in the lives of students, D.A.R.E. provides a community education program consisting of stand-alone presentations. The presentations are of relevant emerging issue impacting the lives of students. The presentations are not school-based and may be presented in various settings, such as work place settings as a part of an employee assistance program or faith-based venues.

## TOP TEN BENEFITS OF THE D.A.R.E. TRAINED OFFICER

**S**ince its inception, D.A.R.E. has shown repeatedly that it is an important tool in protecting children of all ages. Not only does it benefit students, parents, teachers, schools and communities, but the program adds value to law enforcement efforts to prevent criminal activity involving adolescents. The following are the top ten benefits of trained D.A.R.E. officers:

### **10. Improved writing skills**

- ✓ Report writing
- ✓ Investigative reports
- ✓ Professional communication
- ✓ Memos
- ✓ Letters to the public

### **9. Improved verbal and non-verbal communication**

- ✓ Community relations
- ✓ Co-worker relations
- ✓ Court testimony
- ✓ Investigative interviews

### **8. Link to information in communities**

- ✓ Knowledge of trends
- ✓ Trusted by community: may assist with investigations
- ✓ Conduit for intervention
- ✓ Non-threatening: officer may ask for assistance
- ✓ Build relations with disenfranchised communities

### **7. Creativity and flexibility**

- ✓ Know how to access more resources for problem solving
- ✓ Practiced flexibility
- ✓ More knowledgeable about alternatives
- ✓ Maintain professional relationships with differing occupational groups

### **6. Increased “people skills”**

- ✓ Maintain relationships with diverse groups of children and adults
- ✓ Practice effective communication with differing personalities, learning styles and abilities
- ✓ View the positive side of people
- ✓ Practiced in team environment

### **5. Increased motivation for public service**

- ✓ New perspective on law enforcement and community
- ✓ New personal mission: prevention/intervention
- ✓ Part of a larger mission
- ✓ Increased confidence in ability
- ✓ Common language locally, nationally and internationally

*Continued on next page*

## Top Ten Benefits (Continued)

### **4. Increased ability to assess self and others seeking improvement**

- ✓ Practiced "critiquing for success" model
- ✓ Constant evaluation of personal effectiveness in presenting
- ✓ Constant evaluation of others' effectiveness in presenting
- ✓ Knowledge of "role model" expectations (behavior)
- ✓ "Walking the talk" of the lessons

### **3. Decreased potential for liability**

- ✓ New skills gained in behavior management – alternatives
- ✓ New skills gained in conflict resolution
- ✓ Importance of appropriate language, and action is reinforced for maintaining professional relationships

### **2. Seen as a community partner**

- ✓ Community policing image
- ✓ Shared responsibility
- ✓ Realistic expectations of police and their department
- ✓ Given access to various resources

### **1. Represent the Department**

- ✓ Positive image
- ✓ Can off-set negative image
- ✓ Effectively present the department's message (personally or publicly)
- ✓ Provide information
- ✓ Obtain community support
- ✓ Provide community support
- ✓ Serve the public!

# **FDLE AND THE D.A.R.E. PROGRAM**

## **ROLE AND RESPONSIBILITY OF FDLE**

In 1988, the Florida Department of Law Enforcement (FDLE) and the Florida Department of Education (DOE) entered into a partnership to bring a statewide drug prevention program to Florida's schools. The D.A.R.E. program was determined to be the best drug prevention program available, and was selected for implementation in the state of Florida.

The primary role and responsibility of FDLE in the D.A.R.E. program is to serve as the state administrator, which includes, but is not limited to, the preparation and oversight of the budget, training and certification of officers, and preparation of the Annual D.A.R.E. Report. Additionally, FDLE is responsible for ensuring compliance with national standards, delivery of technical assistance, and providing statewide program management.

## **SERVICES PROVIDED BY FDLE**

FDLE provides the following year-round support to the D.A.R.E. program:

- Deliver D.A.R.E. training to state and local law enforcement agencies in Florida, thereby assisting them in the prevention of future drug crimes and acts of violence.
  - ⇒ Develop guidelines for the Florida D.A.R.E. Program
  - ⇒ Serve as a liaison with the National D.A.R.E. policy-making board
  - ⇒ Render oversight of the Florida D.A.R.E. training accreditation
- Conduct statewide audits of local D.A.R.E. programs to ensure compliance with standards.
  - ⇒ Conduct background investigations on D.A.R.E. officer candidates
  - ⇒ Maintain training records on all Florida D.A.R.E. officers
  - ⇒ Coordinate the statewide evaluation of the D.A.R.E. program in Florida
- Provide D.A.R.E. trainers and classroom instructors.
  - ⇒ Substitute for local D.A.R.E. officers who may be absent from the classroom
  - ⇒ Assist other state training centers within the southeast region
  - ⇒ Provide an annual report of D.A.R.E. related activities throughout Florida
- Assist local law enforcement agencies in identifying supplemental funding resources to enhance their D.A.R.E. programs.
- Provide workshops and presentations to businesses, and civic and other community-based organizations concerning drug and violence prevention.

# INSIDE FLORIDA'S D.A.R.E. TRAINING

## TRAINING SUMMARY

**F**rom June 17 - 28, 2013, FDLE and the Collier County Sheriff's Office co-hosted the largest ever D.A.R.E. officer training. Forty-three police officers and deputy sheriffs from seven sheriff's offices and six police departments attended this 80-hour course.

Along with assisting Florida's law enforcement agencies with their D.A.R.E. units and training, the Florida D.A.R.E. training staff teaches classes at various at-risk schools and at community programs and events throughout Florida. The instructors/mentors are trained and certified in the latest programs and curricula. In 2013, 89 current Florida D.A.R.E. officers were provided in-service training by FDLE and D.A.R.E. America.

## MENTOR / TRAINING STAFF

Inspector Stephen Emerson	Florida Department of Law Enforcement D.A.R.E. Statewide Coordinator Criminal Justice Professionalism
Special Agent Dale Crosby	Florida Department of Law Enforcement Orlando Regional Operations Center
Special Agent Kevin A. Sapp	Florida Department of Law Enforcement Ft. Myers Regional Operations Center
Officer Jackee Nester	Hollywood Police Department
Officer Michael Wordly	Miami-Dade Police Department
Corporal Ken Vila	Collier County Sheriff's Office
Deputy Terry Allen	Lake County Sheriff's Office
Deputy Angie Galloway	Gadsden County Sheriff's Office
Dr. Susan Bridges-Tompkins	Statewide D.A.R.E. Educator
Administrative Assistant Mable Wimberly	Florida Department of Law Enforcement Criminal Justice Professionalism

## FLORIDA D.A.R.E. OFFICERS ASSOCIATION

**O**n August 5, 2013, the Florida D.A.R.E. Officer's Association (FDOA) honored **FDLE Special Agent Dale Crosby** with the *FDOA's Lifetime Achievement Award*, **Oviedo Police Department Officer Diane Duffy** with the *2013 Chad Reed Officer Of The Year Award* and **Minneola Elementary School 5<sup>th</sup> Grade Teacher Christie Carver** with the *2013 Florida D.A.R.E. Educator Of The Year Award*. The awards were presented at the FDOA's annual training conference at the Hilton Hotel in Lake Buena Vista, Florida.

The keynote speaker at this year's conference was Mr. Pat Burke, a former NBA basketball player with 12 years of professional experience, including time with the Orlando Magic. Mr. Burke's speech was on *Keeping Kids Safe*. Also addressing the conference was Mr. John Lindsay, the Regional Director for D.A.R.E. America, who provided a comprehensive update regarding D.A.R.E. operations in Florida and throughout the United States.

Next year's FDOA conference will be held in conjunction with the Florida School Resource Officers Association Conference in Daytona Beach.

Pat Burke

Florida D.A.R.E. Officers Association  
Board of Directors

Teacher Christie Carver  
Minneola Elementary School

Officer Diane Duffy  
Oviedo Police Department

*Continued on next page*

## FDOA Conference (Continued)

The *FDOA Lifetime Achievement Award* recipient, FDLE Special Agent Dale Crosby, has approximately 30 years of law enforcement experience in both Florida and North Carolina. Special Agent Crosby has been involved in D.A.R.E. for over 20 years with the North Carolina State Bureau of Investigation, the Lakeland (FL) Police Department and FDLE.

Special Agent Crosby is certified as a D.A.R.E. Instructor, a Mentor, and a Facilitator. He has been used as a D.A.R.E. Mentor by D.A.R.E. America to teach law enforcement officers in Brazil, Thailand and Curacao and throughout the United States.

According to D.A.R.E. Statewide Coordinator and FDLE Inspector Steve Emerson, *"When I meet D.A.R.E. officers and D.A.R.E. supervisors in Florida as well as when I attend the International Training Conferences annually, the one person that they consistently ask about is Dale Crosby and how great of a job he did with training them in D.A.R.E."*

The *FDOA Lifetime Achievement Award* is so richly deserved by this individual who is truly a Master Mentor and Instructor of the Florida D.A.R.E. program, and who has touched thousands of children throughout the state with his expertise and compassion.

FDLE Special Agent Dale Crosby with  
D.A.R.E. America Regional Director John Lindsay

Special Agent Dale Crosby receives the *Lifetime Achievement Award* from Inspector Steve Emerson

## D.A.R.E. AMERICA: THE YEAR IN REVIEW

### D.A.R.E. program remains relevant, important in our schools

*by Mariana DiMercurio*

*Originally published in the [Naples Daily News](#) on October 18, 2013*

Today's teenagers have devoted a day each week to walking down memory lane; it's better known as Throwback Thursday.

By posting pictures from our past on social media sites like Instagram, we are able to share some of our best memories with our friends. It's an automatic recall of our early years and a fun way to appreciate important events and people in our life along the way.

With Red Ribbon Week around the corner, my "throwback" thoughts took me to my fifth grade when I was part of the DARE (Drug Abuse Resistance Education) program. It's a memory that I share with generations of fifth graders throughout Collier County.

Today, the elementary school program is called DARE Keepin' it REAL. REAL is an acronym for Refuse, Explain, Avoid, and Leave. The lessons focus on more than just drugs, but on good decision-making.

Back then, Corporal Wayne Brooks of the Collier County Sheriff's Office was my DARE officer. I can still recall his easy-going style like it was yesterday. Each week students would read from scenarios in a workbook and discuss different ways to handle important situations. At 10 and 11 years old, most students would never think of using drugs or alcohol. At this age, we often listen to the advice of our DARE officer, teachers and parents and eagerly pledge to remain drug- and alcohol-free.

As a student now in high school, I can honestly say that most students my age have kept this pledge and are still drug-free. However, I am also saddened to admit that some students have foolishly abandoned these important promises.

Each time I see someone wearing a DARE t-shirt or see a DARE bumper sticker on a car, I am reminded about these important decision-making lessons and I'm glad to know that fifth-graders in our area still have the same opportunity.

With the tide of individuals, groups, and even states which have given up on keeping kids drug-free, I am proud to live in a community that has kept its commitment to local students for so many years.

This year, the DARE program celebrates 20 years in Collier County, and 30 years as a national program that began in Los Angeles.

I thank all the DARE officers working to make a difference in our community. I believe that the work you do is even more important now.

*Mariana DiMercurio, D.A.R.E. America Youth Advisory Board Florida Representative, is a junior at St. John Neumann High School.*

## YOUTH ADVISORY BOARD

**T**he annual conference of the Youth Advisory Board (YAB) was held in Quantico, Virginia, from April 5 - 7, 2013. Florida's representative on the board is Mariana DiMercurio, a resident of Collier County, who was selected with the help of the Collier County Sheriff's Office. Mariana's experiences at the conference and as a YAB member are documented in her letter below and pictures (on the following pages) taken at the conference.

April 10, 2013

Captain Beth Jones  
Collier County Sheriff's Office  
3319 East Tamiami Trail  
Naples, FL 34112

Dear Captain Jones,

I would like to thank you and the Collier County Sheriff's Office for allowing me to be part of the DARE Youth Advisory Board. This past weekend, I met students from all over the country and learned much more about DARE, drugs and law enforcement.

The DARE YAB Conference was in Quantico, VA at the DEA Training Center. We had a chance to tour many of their buildings, including their clandestine lab, gun range, and even parts of the FBI Academy. On Saturday, we drove to Washington D.C. and heard from the Consumer Health Products Association about the abuse of over-the-counter medicine. They showed us some pretty disgusting videos that made me wonder why anyone would ever want to take drugs.

Although the conference included some serious talks, we also had a lot of fun. I am looking forward to doing more with the national DARE YAB and also helping out in my own community. Our homework from this conference was to send letters to our Governor and U.S. Representatives to tell them about our group. I will send you copies of any letters that I mail.

I am willing to help in any way I can. I know that the Collier County Sheriff's Office does a lot for our community. My parents usually make me aware of any volunteer opportunities that are available. If you think of anything specific you would like me to help with, please let me know.

Once again, thank you for this amazing opportunity.

Sincerely,

Mariana DiMercurio

**Youth Advisory Board  
Annual Conference  
Quantico, VA  
April 5 – 7, 2013**

*Youth Advisory Board Representatives from each state*

*Mariana DiMercurio from Florida  
Brandi Von Seggern from Hawaii*

## FLORIDA D.A.R.E. ESSAY CONTEST

In March, 2013, 110 students of G. Weaver Hips Elementary School graduated after completing the Elementary Curriculum (see page 3). The winner of the statewide essay contest was Jasmine Hopkins, whose essay is shown below.

Jasmine Hopkins

Have you ever heard about DARE? Well if you never did... Here it is because you're about to enter a world full of DARE!

Tobacco is bad for your body. It can make your teeth turn nasty yellow and give you very bad breath. "Yuck!" is right! You don't want that to happen to you. That's nasty. Your breath will probably smell like dirty socks and your teeth would be crayon yellow. Tobacco also has 200 known harmful chemicals. So don't go on smoking like it is nothing to worry about.

Don't just stand there when you see someone being bullied. Do something about it. You don't want to be a bystander do you? When you just stand there and watch your letting someone get hurt or made fun of. You can be the next person to get hurt and that would not be good. I don't think you want someone to stand there and watch. You want them to do something about it. Tell a trusted adult before it

*Continued on next page*

## D.A.R.E. Essay Contest *(Continued)*

happens again. Bullying can be very dangerous. So treat others how you want to be treated.

Have you ever been stressed? If you have, then good thing there are ways to deal with it. You can take deep breaths, relax, and take a nice long walk. You sometimes get stressed when you have a bad day. Did you ever want to punch the wall because you were stressed and angry? Well I have. I wanted to punch just about anything around me. So when you get stressed, just relax, take a walk or even just take deep breaths. You don't want to hurt anyone or hurt yourself.

Now you know some things about DARE. Thanks to Inspector Emerson. He taught me everything about DARE and how to be safe everywhere I go.

Essay contest winner Jasmine Hopkins (center), with her teacher, Ms. Silcox (left) and principal, Ms. Nader.
