SPECIALIZED DE-ESCALATION COURSE

In light of calls for police reform and requests received for additional training, Commission staff developed a specialized course focused solely on de-escalation.

Staff reviewed the established literature and current trainings being delivered around the nation to ensure that the course would contain evidence-based instruction on de-escalation techniques, as well as survey data from Florida. Staff drafted content and held virtual workshops with subject matter experts.

The course discusses the definitions and goals of de-escalation in relation to use of force, decision-making and crisis intervention. It also describes practical techniques and skills used to de-escalate a situation when appropriate. Finally, this course provides real-world scenarios to allow students to practice the skills and techniques they have learned.

The sixteen-hour, inperson course was presented to the Commission on May 6, 2021. The course was approved and is part of the Specialized Training Program. It is now available through the Automated Training Management System.

CRIMINAL JUSTICE REFORM AND FLORIDA'S LAW ENFORCEMENT TRAINING

As we all have heard the calls for police reform and more training for officers in de-escalation, procedural justice, implicit bias and use of force, it is important to note that the Criminal Justice Standards and Training Commission (CJSTC) has been working on these issues long before the current calls for police reform. After many years of planning and working toward weaving these very topics and others throughout the curriculum — not restricting them to a few lessons — the Law Enforcement Basic Recruit Training Program (BRTP) revision is now approved and effective July 1, 2021.

The new 2021 LE BRTP includes enhanced training on many topics:

- Procedural justice as a concept is defined at the beginning of the academy and woven throughout the curriculum; it is also featured as one of the communication exercises' core competencies.
- The different roles of a law enforcement officer (supporter, stabilizer and enforcer) help recruits understand the need to respond dynamically as situations unfold.
- Emotional intelligence and empathy as tools officers can

use in communicating with people.

- Implicit bias, avoiding bias-based policing and the impact of implicit and explicit bias in decision-making and policing.
- Police legitimacy.
- LEED Framework (LEED – Listen and Explain with Equity and Dignity), including responding with professionalism and empathy to people who appear different from oneself.
- Officer wellness (including physical and mental health).
- Power imbalances.
- Serving your community.
- Fear from some community members and how to address this issue.
- De-escalation.
- Communication skills.

Because the CJSTC took a proactive approach to training in the state of Florida, Florida's officers are already being trained on many of the police training topics that were discussed during the 2021 Legislative Session.

A few changes did come from the legislature on the training front. Passing of SB 890 requires instruction on the authorized access to and use of personal identification information contained in electronic databases to be included in the LE BRTP as well as mandatory retraining. In addition, CJSTC staff will work to incorporate and/or expand instruction on topics identified in HB 7051 into the BRTPs. These topics include proportional use of force, alternatives to use of force, duty to intervene, duty to render medical aid and instruction on the recognition of symptoms and characteristics of an individual with a substance abuse disorder or a mental illness and appropriate responses to individuals exhibiting such symptoms or characteristics. Finally, HB 1189 requires all law enforcement officers to complete training on culturally responsive, trauma-informed interviewing and investigations of victims of sexual assault. This training will be developed by Commission staff in conjunction with the Florida Council Against Sexual Violence and will be included in both basic and post-basic training courses.

Senior Leadership Program Class 23 Graduation

The Florida Criminal Justice Executive Institute (FCJEI) is proud to announce the graduation of 25 senior executives from the Senior Leadership Program on July 15, 2021, held at FDLE headquarters in Tallahassee. The graduates represent 20 criminal justice agencies from across the state.

Participants typically meet for seven weeks over a 10-month period but due to the COVID-19 pandemic, this class was postponed for several months. They took classes on topics such as risk management, budgeting, leadership and futures forecasting as it relates to criminal justice.

The goal of the Senior Leadership Program is to prepare Florida's criminal justice leadership for the challenging and changing demands of the future. Class participants study the trends and events that will challenge criminal justice professionals and the state in the new millennium and examine the leadership skills necessary to create and lead the changes that lie ahead.

The Florida Legislature established the FCJEI, affiliated with the State University System, within FDLE in 1990 to meet the need for an innovative and multifaceted approach to educating and training criminal justice professionals.

2021 TRAINING CENTER DIRECTORS WORKSHOP

The 22nd Training Center Directors Workshop will be held at the Florida Public Safety Institute (Pat Thomas Law Enforcement Academy), August 24–27, 2021. The workshop provides a valuable opportunity for new directors to network and to learn some best practices. Attendees may use the 28 hours of training toward their instructor retraining requirements.

The workshop was started to provide new training center directors and their staff with training on the rules and requirements related to training center certification, staffing and facilities along with information about officer training, instructor certification and requirements related to the Criminal Justice Standards and Training Trust Fund. Over the years, the workshop has evolved based on feedback from the participants to provide the most current and relevant information possible.

The workshop is open to training center directors, coordinators and fiscal agents. Registration opened on June 1, 2021. Those interested in attending should contact Lori Morea at LoriMorea@fdle.state.fl.us to register. The class is limited to 25 participants, and preference is given to training center directors who have not already attended a workshop.
