Florida D.A.R.E. Continues Its Mission

The Florida Department of Law Enforcement (FDLE) is proud to continue the Drug Abuse Resistance Education D.A.R.E. Program officer training. D.A.R.E. offers diversion and prevention lessons to K-12-aged children on topics such as opioid abuse prevention, vaping and teen suicide. Specific D.A.R.E. curricula include lessons on bullying, cybersecurity, marijuana, family tasks, K-12 opioid & prescription drug abuse prevention, mental health and the celebration of life. Since 2018, more than 250 communities throughout the United States have launched D.A.R.E. programs. Research has shown that these lessons are effective in reducing outcomes such as drug abuse, bullying and other problem behaviors.

In 2021, 27 D.A.R.E. officers graduated from the intensive training course in Florida. They will join other D.A.R.E. officers throughout the state in providing science- and evidence-based curricula to elementary, middle and high school students. FDLE has currently scheduled two D.A.R.E. training courses in Florida, June 6-17, 2022, in Orlando and July 18-29, 2022, in Ft. Lauderdale. Officers can earn salary incentive for this course. For more information on these training courses and other D.A.R.E. resources, please see <http://www.fdle.state.fl.us/CJSTC/DARE/Training-Schedule.aspx> or contact Inspector David Bullard at DavidBullard@fdle.state.fl.us.

Jupiter, FL 33477

FDLE's Sworn Training Services to Locals

The tragedies of countless active shooter incidents and other targeted violence incidents occurring in Florida and across the country have shown that law enforcement officers must be prepared mentally and possess the skills and techniques necessary to react instantly. Active shooters have one goal in mind, and that is to cause as many casualties as possible before law enforcement arrives. However, as it has been shown through the swift actions of officers and even civilians, one person can make a difference to stop an active shooter.

The tragedies at the Pulse nightclub in 2016 and the Marjory Stoneman Douglas High School in 2018 prompted the Criminal Justice Standards and Training Commission (CJSTC) to form a team of subject matter experts (SMEs) to develop a formal training program and approach to such events of targeted violence. The result of this team of SMEs was the creation of the Single Officer Response to Active Threat and Shooter Incidents course. This course was formally adopted by the CJSTC in May 2019.

This training is designed to give officers the tactics and mental preparation to respond to an active shooter situation by themselves. The course stresses that in an active shooter incident, "time is lives." Therefore, law enforcement cannot wait for backup; they must immediately respond to the threat. The original goal was to better train our school resource officers. However, after the course was developed, it was quickly realized that this training applies to all first responders across this state and the nation.

Upon adoption of the course, the Florida Department of Law Enforcement (FDLE) tasked the Sworn Training Unit (STU) within the Criminal Justice Professionalism Division with implementing the training across the state. To date, the Single Officer Response to Active Threat and Shooter Incidents course and instructor course has been offered 54 times, certifying over 700 officers and instructors.

Additionally, in 2020, due to the nationwide rise in ambushes on officers sitting in their vehicles,

the STU developed and began delivering a Counter Ambush course. This course is geared specifically toward dealing with the sudden ambush of officers. The training provides officers with the knowledge, tactics and skills necessary to identify and respond to these types of violent attacks. To date, the STU has trained over 150 officers in the Counter Ambush course.

Offering training to improve an officer's chance of survival during critical situations continues to be the primary focus of the STU. High-liability training courses are offered to agencies across Florida free of charge.

FDLE is committed to continuing to deliver this and other specialized courses designed to transform the mindset and skills of officers, and be an innovative force in Florida. For more information or to schedule one of these courses, please contact Special Agent Supervisor Dan Augustyniak at 850-410-8281.

New Training Requirements to Reduce Misuse of Databases

Every year, a small percentage of officers face the consequences of misusing criminal justice databases. In 2021, the Florida Legislature mandated that Florida law enforcement officers receive training regarding the databases, such as DAVID and FCIC, to ensure officers clearly understand both the proper and improper use of databases.

The Professionalism staff at FDLE subsequently developed the instruction and incorporated it into the Basic Recruit Training Program. Staff also developed a one-hour online course, *Misuse of Electronic Databases* (# 1414), for current officers. This course meets the statutory requirements and was approved by the CJSTC effective November 4, 2021. Although the legislation does not require officers to complete the Commission course, agencies must ensure that the topic areas outlined in the statute are covered within their trainings.

Each law enforcement officer must complete this training every four years as part of the 40 hours of instruction for continued employment or appointment as an officer. This requirement is effective beginning with mandatory retraining cycles that end June 30, 2022.

Agency users must document course completions in the Automated Training Management System (ATMS). Once an officer has completed the training along with the other required topics and other mandatory retraining, ATMS administrators will check the box to confirm the officer has completed training on the misuse of databases.

Officers may access the course at <http://www.fdle.state.fl.us/FCJEI/Online-Training/Misuse-of-Electronic-Databases>.

2022 TRAINING CENTER DIRECTORS WORKSHOP

The 23rd Training Center Directors Workshop will be held at the FDLE Headquarters from March 29 through April 1, 2022. The workshop provides a valuable opportunity for new directors to network and share best practices with each other. Attendees may use this 28 hours of training toward their instructor retraining requirements.

This annual workshop started years ago as a way to familiarize new directors and their staff with training on various topics, such as the Florida rules and requirements necessary for training center certification, staffing and facility management as well as information about officer training, instructor certification and requirements related to the Criminal Justice Standards and Training Trust Fund. The workshop has evolved to provide the most current and relevant information available.

This training opportunity is open to directors, coordinators and fiscal agents from CJSTC-certified training schools. Registration opened on February 1, 2022, and early registration is encouraged. Those interested in attending can register by contacting Lori Morea at LoriMorea@fdle.state.fl.us. Preference is always given to training center directors who have not previously attended the workshop; attendance is capped at 25 participants.

54th *Class of the* **Chief Executive Seminar**

The Florida Criminal Justice Executive Institute announces the graduation of the 54th Class of the Chief Executive Seminar on October 28, 2021, in Tallahassee, FL. The participants, who represent criminal justice agencies from around the state, serve in leadership roles within their agencies.

Fourteen participants met for one week a month for three months, taking classes on topics such as future trends, managing generations, social media, risk management, stress awareness and implementing strategic change.

The goal of the Chief Executive Seminar is to prepare Florida's criminal justice leadership for the challenging demands of the future. Class participants study trends and events that may affect criminal justice professionals and Florida, while developing new leadership skills to address the changes that lie ahead.

The Florida Criminal Justice Executive Institute, within the Florida Department of Law Enforcement and affiliated with the State University System, was established in 1990 by the Florida Legislature in recognition of the need for an innovative and multifaceted approach to the education and training of criminal justice professionals.

Florida Leadership Academy Class 49 Graduation

The Florida Criminal Justice Executive Institute (FCJEL) is proud to announce the graduation of the Florida Leadership Academy (FLA) Class 49, held at the Hillsborough County Sheriff's Office in Tampa on November 19, 2021. The 41 class participants served in leadership roles representing 35 criminal justice agencies throughout the state. Academy participants met for four week-long sessions from August to November.

The FCJEL recently launched FLA Class 50 in January at the Okaloosa County Sheriff's Office in Crestview. Class 50 is scheduled to graduate in April 2022.

FLA participants learn the skills necessary to support the needs of their agencies and communities in preparation for future challenges. FLA's goal is to prepare first-line supervisors in criminal justice to exemplify the character and integrity expected of criminal justice professionals, while examining the various components necessary to become efficient leaders.

Florida Law Enforcement Analyst Academy Certifies 22 Analysts

The Florida Law Enforcement Analyst Academy is proud to announce the graduation/certification of 22 law enforcement analysts on December 16, 2021. Analysts attending this academy met one week a month for six months. The analysts are challenged with weekly assignments and quizzes, group and individual projects and a comprehensive final exam. Successful graduates are designated by FDLE as certified law enforcement analysts.

The Florida Law Enforcement Analyst Academy was developed in 2003 by the Florida Department of Law Enforcement to provide analysts the opportunity to learn criminal and intelligence analysis skills. The curriculum for this academy is continually being updated to keep up with the everchanging world of technology and resources that will provide the analysts the tools needed to predict and prevent criminal activity. With the graduation of this class, 32 academies have been delivered and over 750 analysts have been trained.

PROFESSIONALISM

DIVISION UPDATES

Kris Brady

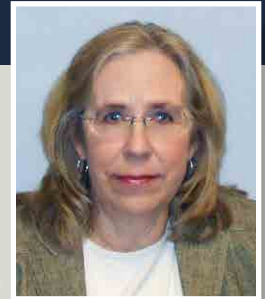

Maxine Payton

Wendy Rivers

Judd Butler

Sara Clausen

Kris Brady departed from the Criminal Justice Professionalism Division on January 14, 2022, to pursue a career with the Florida Gateway College as the Executive Director of Workforce, Public Safety and Technology Programs. Kris has been a member of the Criminal Justice Professionalism Division since November 2016, when he began serving as a field representative in the Field Services Section. During his tenure with the Division, he assisted with many projects, most recently teaching in the annual Training Center Directors Workshop and working as a trainer for a new field representative. His dedication and commitment to service has been an invaluable asset to the Division, the Commission and the citizens of Florida. His passion for the agencies and training schools assigned to him will be missed, and we wish him well as he begins this new chapter in his career.

Maxine Payton left the Criminal Justice Professionalism Division in January 2022 to take a new position within FDLE. Maxine has been a valuable member of the Officer Records Section since November 2006, when she first began serving as a criminal justice customer service specialist. During her tenure with the Division, she was instrumental in fostering and maintaining the Section's excellent reputation for service. Maxine is highly regarded by the agencies and training schools she has assisted over the years. In August 2021, Maxine was honored by the Department as the Distinguished Support Service Member of the Year. Her dedication and commitment to service has been an invaluable asset to the Division, the Commission and the citizens of Florida. She will be greatly missed, and we wish her well as she transitions to her new position.

Wendy Rivers joined the Sworn Training Unit in November of 2021 as a research and training specialist. Wendy first began her FDLE career 22 years ago, in the Criminal Justice Information Services Division (CJIS). She has since held the position of staff assistant in the Office of Executive Investigations, and later returned to CJIS as a crime intelligence analyst. Most recently, Wendy served as an administrative assistant II in FDLE's Tallahassee Regional Operations Center for the past six years prior to her promotion into the Sworn Training Unit.

Judd Butler will retire from FDLE in March 2022 after serving over eight years in the Professionalism Division. He began work in November 2013 as an OPS Research and Training Specialist in the Bureau of Training and was promoted to Training and Research Manager in July 2015. Prior to joining FDLE, Judd had twenty years' experience in large-scale instructional systems including 10 years at FSU managing projects with the U.S. Navy, U.S. Coast Guard and Department of Homeland Security. "This is meaningful work," Judd said, "but serving alongside the others at FDLE makes it a real honor." Please join us in congratulating Judd on his pending retirement.

Sara Clausen is retiring from FDLE after 16 years of service. Sara joined FDLE in March 2006 and worked in the Florida Offender Registration and Tracking program in Criminal Justice Information Services. Sara moved to the Professionalism Division in 2013 where she worked as research and training specialist, developing curriculum. She became an editor in 2016 and was promoted to a government analyst II in 2021. She served as the lead editor, overseeing the textbook publishing process and providing editing services to the Division. Bureau Chief of Training Ashley Pennington said, "We really can't thank Sara enough for all that she has done—not only for this agency, but for all of our officers throughout Florida. She has been the driving force behind so many positive changes within Florida's training." Please join us in wishing Sara well as she embarks on this new adventure.

Florida Accreditation Office Assists FSA with Accreditation Initiative

Accreditation has long been recognized as a means of maintaining the highest standards of professionalism. Currently, more than 44 percent of all law enforcement agencies in the state are accredited by the Commission for Florida Law Enforcement Accreditation (CFA), including 37 sheriffs' offices.

The Florida Accreditation Office (FAO) is working with the Florida Sheriffs Association (FSA) toward the goal of attaining accreditation for all sheriffs' offices in Florida. To achieve this goal, FSA is offering financial and program assistance to sheriffs' offices that are seeking accreditation. Accreditation coordinators have already been assigned to different regions of the state to work directly with smaller sheriffs' offices.

These coordinators have experience as both CFA accreditation managers and assessors. They will assist the sheriffs' offices by discussing the next steps necessary to move forward with the accreditation process. Once an agency signs an agreement with CFA, they have two years to come into compliance with all applicable accreditation standards. Assessors will look at items such as policies, practices, files, security and equipment.

The CFA and FAO are excited to be working in cooperation with one of their founding organizations on this initiative and appreciates the continued support of the Florida Sheriffs Association.

2020 Annual Drugs Identified in Deceased Persons Report

During the year of 2020, 243,088 total deaths were recorded in Florida. The recently released Annual Drugs Identified in Deceased Persons Report by the Florida Medical Examiners Commission contains information compiled from autopsies across the state. Medical examiners determined that 14,708 individuals died with one or more of the 40 substances excluding alcohol in their body that may have been a factor in their death. This is a 17 percent increase in total drug-related deaths compared to 2019. Opioids were found to be present or the cause of death in 7,842 of these individuals, a 28 percent increase from 2019. It is also notable that there was a 63 percent increase in fentanyl (an opioid) caused deaths, with the data indicating the increase is mainly due to illicit fentanyl rather than prescription fentanyl.

The drugs that caused the most deaths were fentanyl (5,302), cocaine (2,400), ethyl alcohol (1,389), methamphetamine (1,386), benzodiazepines (1,152, including 722 alprazolam deaths), morphine (916), fentanyl analogs (848), amphetamine (768) and heroin (708). Fentanyl (91 percent), heroin (84 percent), mitragynine (67 percent), methamphetamine (67 percent), cocaine (65 percent), methadone (56 percent) and morphine (56 percent) were listed as causing death in more than 50 percent of the deaths in which these drugs were found.
