

## FBI Crime Laboratory

The FBI Crime Laboratory now has the capability to perform Forensic Anthropological examinations on unidentified human remains submitted to them by Florida medical examiners. This section also has the capability to perform facial reconstructions on some human skulls. The FBI Laboratory will issue a report to the respective medical examiner, and if requested, submit a sample directly to the FBI's DNA Analysis Unit for possible entry into the National Missing Person DNA Database.

These services are provided at no cost to the medical examiner.

It has been requested that evidence submissions be pre-arranged through the following contact:

Dr. Cary T. Oien  
Unit Chief of Trace Evidence  
FBI Laboratory  
Quantico, Virginia  
(703) 632-7692
