The following data comes from the Florida Department of Law Enforcement’s Uniform Crime Report (UCR) system; the system provides standardized annual and semi-annual reports on crime statistics based on data gathered from across the state. Law Enforcement Officers Killed or Assaulted (LEOKA) statistics are reported to the UCR Program and the submission of supplemental data is required for each incident. Among other data elements, Supplemental LEOKA reports include data about each officer’s age, gender, race, experience, and the type of weapon used by the offender. Between 2008 and 2018, there were 34 officers feloniously killed and 74,688 officers assaulted in the State of Florida.

**Assault on Law Enforcement Officers**

**Extent of Injury by Weapon Type**
