If No, please explain:

6. Please complete the following table with the percentage of your program's funding that comes from each funding source. Estimate the percentages, rounded to the nearest whole number, based on your program's budget for the fiscal year. *"This JAG award" refers to the award you are currently reporting on. If your program is fully funded by this JAG award, please enter "100" for "This JAG award." You must enter a value between 0 and 100 for each cell, and both must total 100. This information will be used to automatically prorate your JAG-funded program output data. Please note: a separate report is also required for other JAG awards funding this program.*

Calculation: To calculate the amount for "This JAG award," take the amount of this JAG award's funding going toward the program, and divide it by the total amount of funding for the program. For example, if your program has a budget of \$50,000 for the year and \$15,000 of that comes from this JAG award, "This JAG award" equals $15,000/50,000$, or 30 percent.

To calculate the amount for "All other sources," divide the remaining funds by the total budget. In the above example, this would be $35,000/50,000$, or 70 percent.
