Program Description

This solicitation seeks subrecipient applications to fund projects or programs relating to PSN Task Force activities, mission, and goals within the USAO Southern District. This solicitation contains information provided by DOJ and FDLE regarding specific areas of national focus and the priorities to help maximize the effectiveness of PSN funding.

The PSN program is designed to create and foster safer neighborhoods through a sustained reduction in violent crime, including but not limited to, addressing criminal gangs and the felonious possession and use of firearms. The program's effectiveness depends on the coordination, cooperation, and partnerships of local, state, tribal and federal law enforcement agencies, and the communities they serve, engaged in a unified approach led by the USAO Southern District of Florida. Acting decisively in a coordinated manner at all levels: federal, state, local and tribal; will help reverse a rise in violent crime and keep American citizens safe. PSN provides the critical funding, resources, and training for law enforcement, prosecutors, and their PSN teams to combat violent crime and make their communities safer through a comprehensive approach to public safety that marries targeted law enforcement efforts with community engagement, prevention, and reentry efforts.

Program Objectives

The PSN Program's objectives are to:

- Establish and implement effective programs and strategies that enable PSN task forces to effectively prevent, respond to, and reduce violent crime
- Effectively use and integrate intelligence and analysis to identify high crime areas and prolific violent offenders into the strategic and tactical operations of PSN task forces and community agencies
- Foster effective and consistent collaboration with community-based organizations and the diverse communities that law enforcement agencies serve, thereby increasing public safety and the reduction of violent crime
- Create and maintain ongoing coordination among federal, state, local, and tribal law enforcement officials, with an emphasis on prevention, tactical intelligence gathering, more vigorous and strategic prosecutions, and enhanced accountability

Program Strategy and Purpose

As Fiscal Agent, FDLE administers funds for eligible program activities within the State of Florida for PSN grant awards. The USAO, Southern District is responsible for establishing a collaborative PSN team (task force) of federal, state, local, tribal (where applicable) law enforcement and other community members to implement a Strategic Action Plan (SAP) for investigating, prosecuting, and preventing violent crime. Crime in the TEAs will be monitored over time to measure the effectiveness of the program related to identified problems.

Targeted Enforcement Areas

The Southern District has identified five, targeted enforcement areas (TEAs): the Northside of Miami-Dade County (City of Miami), the City of Miami Gardens, the South End area of Miami-Dade County, the City of Pompano Beach (Broward County), and the City of Lake Worth (Palm Beach County). Each of the Southern District's TEAs report significantly higher violent crime rates than the national rate when comparing firearm violence (including fatal and non-fatal shootings, robberies, and carjackings), gang-related violent crime, and narcotics-related offenses (including the distribution and use of fentanyl, heroin, cocaine, and synthetic drugs).

Strategic Action Plan Goals

The Fiscal Year (FY) 2018 PSN Southern District grant allocation is earmarked for the development of law enforcement and prevention strategies aimed at reducing the violent crime problem in the identified TEAs and to prevent violent crimes from recurring. The subaward funding will assist the task forces in implementing

PSN initiatives in collaboration with law enforcement partners and community stakeholders to reduce short-term and long-term rates of homicide and other serious violent crimes (aggravated assaults, robberies, and gun offenses) in small, one to two square mile areas within the TEAs.

Evidence-based Programs and Practices

The DOJ Office of Justice Programs (OJP) strongly emphasizes the use of data and evidence in policy making and program development in criminal justice, juvenile justice, and crime victim services.

Programs and practices are considered to be evidence-based when their effectiveness has been demonstrated by causal evidence, generally obtained through one or more outcome evaluations. Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of a change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which OJP considers a program or practice to be evidence-based.

The OJP CrimeSolutions.gov website at <https://www.crimesolutions.gov/> is one resource that applicants may use to find information about evidence-based programs in criminal justice, juvenile justice, and crime victim services.

The DOJ has prioritized the use of evidence-based programming and deems it critical to continue to build and expand the evidence informing criminal and juvenile justice programs to reach the highest level of rigor possible. Therefore, applicants should note that OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. Recipients and subrecipients will be expected to cooperate with program-related assessments or evaluation efforts, including through the collection and provision of information or data requested by OJP (or its designee) for the assessment or evaluation of any activities and/or outcomes of those activities funded under this solicitation. The information or data requested may be in addition to any other financial or performance data already required under this program.

Intergovernmental Review

The FY2018 PSN program is subject to Executive Order 12372, "Intergovernmental Review of Federal Programs." This Order fosters intergovernmental partnerships and strengthens federalism between state and local governmental entities. As a result, FDLE may provide information regarding subrecipient applications to the state single point of contact to satisfy this requirement.

The PSN program does not require matching funds, however, if a subrecipient identifies match on an application approved for award, the match portion will be required.

Administrative Costs

Administrative costs/fees are not allowable on PSN subawards.

Prohibited Uses

PSN funds may not be used to supplant state or local funds. Funds must only be used to increase the amount of funds that would, in the absence of federal funds, be made available for the given activities.

Costs Requiring Pre-Approval

Conference/Meeting/Training Costs

OJP policy and guidance encourages minimization of conference, meeting, and training costs; sets cost limits including a general prohibition of all food and beverage costs; and requires prior written approval of most

conference, meeting, and training costs. Subawards requesting grant funds for meetings, trainings, or conferences may be required to complete and submit an OJP event submission form upon request from FDLE and/or OJP.

Sole Source Justification

If any proposed costs will be procured via a sole source from a single vendor, a Sole Source Justification form (<http://www.fdle.state.fl.us/Grants/Resources-Forms>) must be submitted to FDLE for approval prior to obligation of funds. For sole source procurement over the federal Standard Acquisition Threshold (SAT) of \$150,000, written pre-approval must be obtained from both FDLE and DOJ. Subrecipients should submit the completed Sole Source Justification form at the time of application or as soon as the procurement method is known. Sole source approval applies to the amount of the total procurement, regardless of the amount of federal investment in the purchase.

This includes any curricula, training materials, brochures, or other written materials that will be published, including web-based materials and web site content, as well as all audio or video materials, including Public Service Announcements. Subrecipients must submit a draft of each proposed item to OCJG **no later than thirty (30) days prior** to the targeted dissemination date.
