www.flsexoffender.net

The **Florida Offender Alert System** is designed to notify citizens when sexual offenders or predators have moved into a specified area. Registering for alerts is simple. And there is no charge.

Enter an address

- The address can be your home address, your child's school address, your workplace, or any other location you select.
- There are no limits to the number of addresses you can monitor.
- When a registered sex offender or predator moves into a designated radius of the address(es) you selected, you will receive an e-mail alert containing information about the offender and their new address.

AND/OR

Select a registered sex offender or predator

- You can select any number of offenders or predators to monitor.
- When any of the offenders or predators you select updates his or her address, you will receive an e-mail alert containing information about the offender and their new address.

When will I receive alert notifications?

Once you specify an address to monitor, you will receive an e-mail alert notification when an offender updates his/her Florida address inside the specified radius.

If you specify an offender to monitor, you will receive e-mail notification when the tracked offender/predator updates his/her Florida address information.

E-mail alerts will be sent within 24-48 hours of the registry receiving the new address information.

How is the radius around my address determined?

The Florida Offender Alert System utilizes technology that automatically sets a radius based on the population of offenders and predators in the vicinity of the address(es) you provided.

You may adjust this radius to 5 miles.

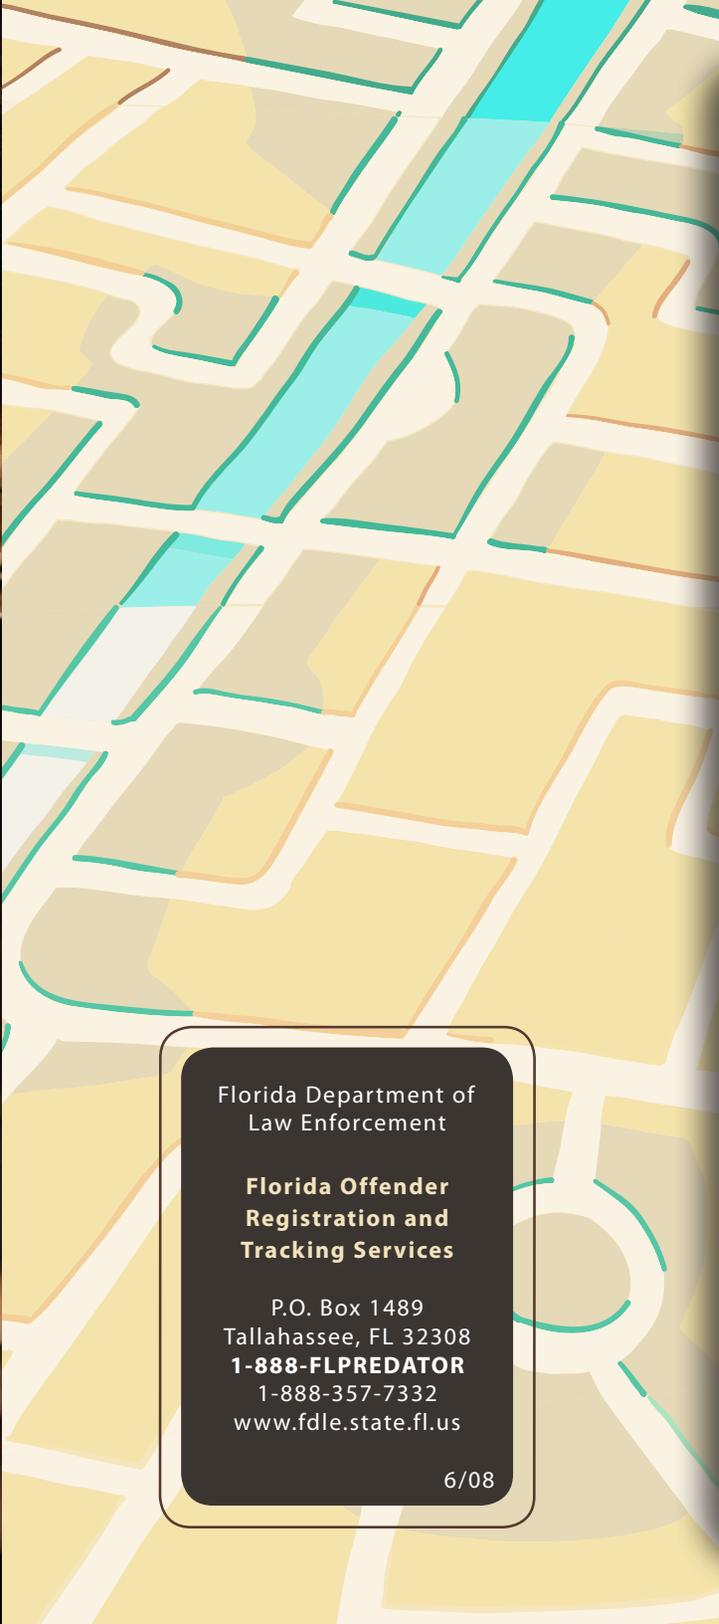

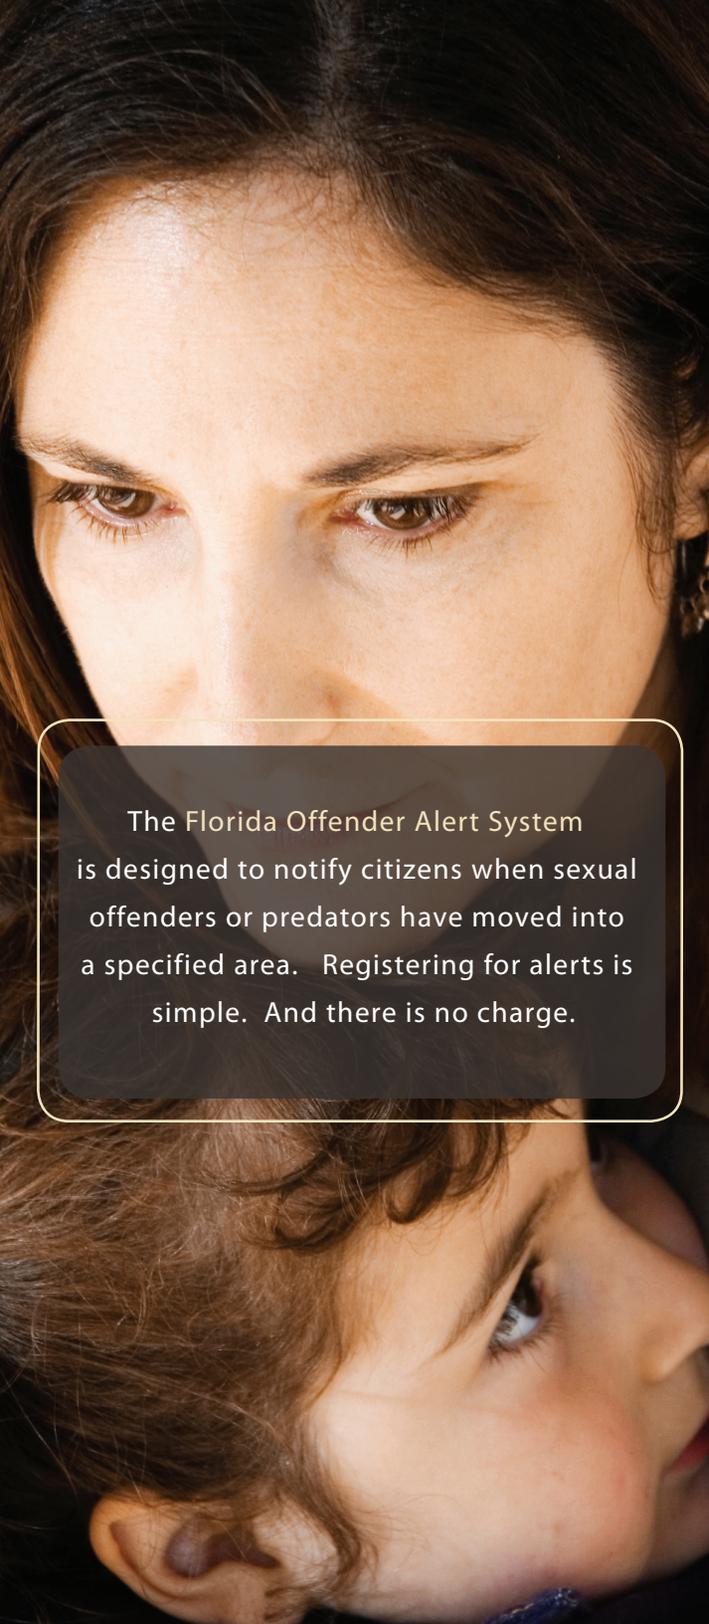

What should I do if I believe an address reported for a sexual offender/predator is incorrect?

Please contact the Florida Offender Registration and Tracking Services at 1-888-357-7332. You will be asked to provide any information you may have regarding the offender or predator's registered address or his/her new location.

Will Florida Offender Alerts tell me of the offenders/predators who already have an address within my set radius?

No. The system will only notify you when an offender or predator updates an address within the area you are monitoring.

Visit www.fdle.state.fl.us to search for offenders and predators in a specific city, county, or zip code. The site also contains a Neighborhood Search function that allows you to search registrants within a radius of a particular address. Using these search systems will let you see what offenders and predators are currently in your area.
