Revised July 2019
Since the tragic events of September 11, 2001, Florida has implemented a solid domestic security strategy aimed at prevention and response.

Florida’s Domestic Security Strategic Plan remains a working document, reviewed and prioritized each year. Seven Regional Domestic Security Task Forces (RDSTF’s) co-chaired by a local sheriff or police chief and the local FDLE Special Agent in Charge, are the foundation of Florida’s Domestic Security Strategy.

These multi-jurisdictional and multi-disciplinary task forces work together to strengthen Florida’s domestic security preparedness, prevention, protection, mitigation and response. In addition to law enforcement, task force members include first responders such as fire-rescue, emergency management, public health and hospitals. The task forces also work with schools, businesses and private industries.

What is a threat level? The National Terrorism Advisory System provides information about terrorist threats to the public, government agencies, first responders, airports and other transportation hubs, and the private sector. These alerts will include a clear statement that there is an imminent threat or elevated threat.

Imminent Threat Alert
Warns of a credible, specific, and impending terrorist threat against the US.

Elevated Threat Alert
Warns of a credible terrorist threat against the US.
