

Dr. Murphy,

I have enclosed this letter with both of our instruments after we spoke on the phone. Both of them are having power supply issues and I could not get them top power on past the orange LED for the November agency inspection.

Instrument 80-001192 has been completed for its annual. (Copy Included)

Instrument 80-000838 **has not had its annual.**

Please let me know what all needs to be done for the repairs, ass I am still new to this.

Thank you very much as always for your assistance.

Ofc. Jacob Moore

Panama city Beach Police Department.
