The Florida Department of Law Enforcement
Statement of Agency Organization and Operation

This statement of agency organization and operation has been prepared in accordance with the requirements of Section 28-101.001, FAC and is available to any person upon request.

The Florida Department of Law Enforcement (FDLE) was created by Section 20.201, F.S. The mission of FDLE is to “promote public safety and strengthen domestic security by providing services in partnership with local, state, and federal criminal justice agencies to prevent, investigate, and solve crimes while protecting Florida’s citizens and visitors”. Through its seven Regional Operations Centers (ROCs) and five Divisions, FDLE delivers investigative, forensic, information, training and protection/security services to Florida’s criminal justice community.

In 1967, the Florida Legislature merged the responsibilities of several state criminal justice organizations to create the Bureau of Law Enforcement. The Bureau began with 94 positions, headed by a Commissioner who reported to the Governor, certain Cabinet members, two Sheriffs and one Chief of Police. Then in July 1969, due to government restructuring, the Bureau became FDLE.

FDLE is composed of five divisions: Executive Direction and Business Support, Criminal Investigations and Forensic Science, Criminal Justice Information, Criminal Justice Professionalism and the Florida Capitol Police. In addition, the department formally coordinates boards, councils, and commissions. FDLE’s duties, responsibilities and procedures are mandated through Chapter 943, F.S. and Chapter 11, F.A.C.

The head of the department is the Governor and Cabinet. The Executive Director of the department (Commissioner) is appointed by the Governor with the approval of the Cabinet and subject to confirmation by the Senate. The Commissioner must be a Florida resident with at least five years training or experience in law enforcement. He or she may establish a command, operational and administrative services structure to assist, manage and support the department in operating programs and delivering services.
