Corporal Sullivan,

I am unable to resolve the issue you have with your modem port here at ATP. I need to send the instrument to a repair facility. Do you want me to send the instrument to Enforcement Electronics or CMI, Inc.?

Thank you.

Subject: Modem Port on Intoxilyzer

Jake,

I completed an inspection on 80-000775 this morning. When I finished everything, the inspection wouldn't upload. I kept getting a connection error. I inspected the phone line and noticed that it wasn't connected. I attempted inserting it and I noticed that the actual connection port wasn't secure and was pushed inside the machine. The phone cord is unable to be connected at this point. How should we handle this?

Thank you,
