Subject: Monroe County deregister

Good Afternoon,

Have 80-000868 and 80-000869 been deregistered?

Thanks,

Michael Haughey

Good afternoon sir,

Do you know if 80-000868 and 80-000869 have been deregistered as evidentiary instruments and can be used as training instruments yet? I am going to drop them off to our Training Division later today. We do not have any upcoming BTO classes, I was only curious in case someone asked me when I was at the office. Thanks for your help.

Jason

Subject: RE: Inner-Agency Intoxilyzer transfer

Good afternoon sir,

I just completed the post-evidentiary Agency Inspections on both Intoxilyzers 80-000868 and 80-000869. As of this email, these two Intoxilyzers are going to be given to our Training Division to be used for Breath Test Operator and Agency Inspector training courses. All of the records on the two Intoxilyzers have been uploaded to FDLE's server. If there is anything else I need to do on my end please let me know. Thank you for your help and have a great day.

Before they can go into use for training, they will need to be de-registered as evidential instruments. Send me the serial numbers and I can get that done for you.

Thanks,

Michael Haughey

Good morning sir,

As you know we recently purchased 2 new Intoxilyzers to replace 2 of our older ones. I was considering giving 2 of our older spare Intoxilyzers to our Training Division to use during BTO or Agency Inspector classes. Besides performing a post-evidentiary Agency Inspection on the Intoxilyzers, is there anything else either I or you would need to do before transferring them to our Training Division? Thanks for your input and have a great day.
