JE

Good Morning Tom,

We had an issue over the weekend where an officer made a DUI arrest and planned to use our Intox machine. When he turned the machine on, the yellow light indicator came on and remained on. They waited 30 minutes and the display never worked.

I came in this morning and tried the same thing myself, and got the same result. The display screen is blank and the yellow light indicator stays on. Any assistance in to how to correct this would be great.

Thanks in advance.
