Sgt. Reasoner,

Thank you for notifying me about this issue. If the instrument has not already entered "Disabled Mode", take the instrument out of evidentiary use until an Agency Inspection can be performed to bring the instrument back into compliance with Rule 11D-8.

Due to unforeseen circumstances, the June inspection did not get completed. I plan to get an inspection done on Wednesday July 3, 2019. Will that suffice?

I understand I will still need to conduct a July inspection also.

Thanks
