Good afternoon,

In reference to the suggestion by our Department Inspector, Taylor Gutschow, our agency inspections were completed within the first half of December to avoid any issues with COBRA uploads due to the holidays.

Instrument 80-000812 was not inspected due to the instrument being at CMI, Inc. for diagnosis and/ or repair of its power issue.

Instrument 80-000814 was inspected with no issues to report. Instrument 80-000814 is being utilized as our primary instrument.

Instrument 80-005249 was inspected with no issues to report. Instrument 80-005249 is being utilized as our alternate instrument.

Instrument 80-000228 was provided to us from FDLE as a loaner instrument while 80-000812 is out for repair. Instrument 80-000228 was inspected with no issues to report. Upon receipt of Instrument 80-000812 back from repair, Instrument 80-000228 will be returned to FDLE.

Our instruments were uploaded to FDLE upon completion of the agency inspection.

All of our simulators have been calibrated by TechSource.

All of our breath tests are being recorded with the WatchGuard recording equipment.

If I can be of additional assistance, please do not hesitate to contact me.

Respectfully,
Dep. B. Collito

Deputy Brad Collito
