Good evening Taylor,

As per our discussion earlier today, this is just a reminder.

Last month (December/2022), I conducted monthly inspections of three intoxilyzer instruments. However, I was unable to transmit the data within the 5 days, due to office closures. The instruments have not been used since then. I will be conducting the January 2023 inspections tomorrow (01/24/2023) and will transmit all the pending data for all three instruments (December and January).

The instruments in question are:

SN 80-006770
SN 80-006260
SN 80-006766

Respectfully,

Trooper Gabriel Teruz
