Taylor,

I did an inspection on 80-000884 this morning (3/2). It passed and I printed out the ATP form 40 at 0335. Then, while backing out of the menu, I inadvertently restarted an inspection process (at 0338) and was not able to back out of it, so I printed the second form 40 as you see. Obviously, it had just passed, but I wanted you to have the second form with my hand-written notes on it to enter into the system. It uploaded already. Let me know if there is anything else I have to do. You just did the annual on this one, BTW.

RC
