Subject: [EXT] Information Needed

Good morning,

Please send me the serial number(s) of the evidential instrument(s) that was used as a trainer, as well as the date(s) of the training. If you know which breath tests or inspections are training scenarios, please provide those as well. I know we spoke about this last Friday, but just a reminder... evidential instruments are <u>not</u> to be used as trainers. You can permanently deregister an evidential and convert it to a trainer (reach out to me for details), or you can borrow trainers from local agencies, or you can request to borrow trainers from FDLE's Tallahassee lab if they are available.
