# Florida Department of Law Enforcement Alcohol Testing Program

## DEPARTMENT INSPECTION REPORT - INTOXILYZER 8000

Agency: FL HIGHWAY PATROL  
Time of Inspection: 15:04

Date of Inspection: 06/25/2025

Serial Number: 80-006736  
Software: 8100.27

| Check or Test                                  | YES | NO | Check or Test                             | YES | NO |

Remarks:

The above instrument complies ( ☒ ) does not comply ( ☐ ) with Chapter 11D-8, FAC.

I certify that I performed this inspection in accordance with the provisions of Chapter 11D-8, FAC.

|                   |                          | 0.080 g/ 210 L Dry Gas Control 0.005 |

All results are reported in g/ 210 L.

Bias is limited by calibration acceptance criteria. All calibration results must be within  $\pm 0.005$  or 5%, whichever is greater, of the target alcohol concentration.  
\*Uncertainty is based on fleet-wide data and is expressed to a 99.73% level of confidence ( $k=3$ ).

The instrument results before and after any adjustment are found in the associated pre and post stability checks.

## TRACEABILITY INFORMATION

This instrument was calibrated using solutions prepared by Alcohol Countermeasure Systems, Inc. (ACS). ACS prepared and certified these CRMs in accordance with ISO 17034 and ISO/ IEC 17025 Standards.

Simulator temperatures are traceable to NIST. Simulator temperatures are checked with NIST traceable digital thermometers calibrated by Precision Metrology in accordance with ISO/ IEC 17025 standards.

Dry gas control measurements are traceable to NIST through the use of CRMs supplied by an accredited CRM supplier. The supplier of dry gas standard controls prepared and certified the CRMs in accordance with ISO Guide 34 and ISO/ IEC 17025 standards.  
This document shall not be reproduced except in full, without written approval of the Florida Department of Law Enforcement Alcohol Testing Program.

| Notes/Suggested Service: Performed Root Cause Analysis per TSOP and noted prior to applying pressure from the flow meter for the flow verification, the reading on the instrument was not zero (L/s). SLH 3/27/2025<br>Post-flow calibration adjustment values outside nominal range upon first attempt. I performed root-cause analysis and repeated the adjustment with a different flow column Results in nominal range. DA 04/01/2025<br>*See written notes regarding incorrect DGS lot used during calibration adjustment. DA 04/02/2025                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                           |                          | <input checked="" type="checkbox"/> Instrument Complies with Chapter 11D-8, FAC<br><input type="checkbox"/> Instrument Does Not Comply with Chapter 11D-8, FAC<br><input checked="" type="checkbox"/> Return to/Place into Evidentiary Use<br><input type="checkbox"/> Remain Out of Evidentiary Use<br><input checked="" type="checkbox"/> Conduct an Agency Inspection Before Evidentiary Use                                                                                                                                                                                                                                                       |               |                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |              |                        |         |            |                       |        |         |                       |       |        |                       |            |           |                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |           |          |                                             |                                                           |                                                      |                                                      |                                                             |                                             |                                                            |                                      |       |            |       |        |       |            |       |        |       |            |       |        |       |            |           |     |             |             |                                                                                                                                                                                                                                                                                                               |  |  |           |               |       |        |             |        |       |        |       |        |       |        |

DGS

Operator's Signature

I performed first optical bench calibration adjustment using DGS lot # 06723080A5 with expiration date of 04/05/25. I didn't realize I used the wrong DGS until I performed this DGS stability, with DGS lot # AG1310901 and expiration 04/19/25. It was the only stability check completed prior to repeating the optical bench calibration adjustment. DA 04/02/25.

# Calibration Certificate

This is to certify the calibration of Intoxilyzer 8000 serial number 80-006736, manufactured by CMI, Inc. was calibrated in accordance with FDLE/ATP Form 36 - Department Inspection Procedures - Intoxilyzer 8000.

|                   |                          |                                      |
|-------------------|--------------------------|--------------------------------------|
| Serial Number:    | <u>80-006736</u>         | UNCERTAINTY* $\pm$                   |
| Owning Agency:    | <u>FL HIGHWAY PATROL</u> | 0.050 g/ 210 L 0.004                 |
| Calibration Date: | <u>04/02/2025</u>        | 0.080 g/ 210 L 0.004                 |
| Calibration Time: | <u>16:28</u>             | 0.200 g/ 210 L 0.007                 |
|                   |                          | 0.080 g/ 210 L Dry Gas Control 0.005 |

All results are reported in g/ 210 L.

Bias is limited by calibration acceptance criteria. All calibration results must be within  $\pm 0.005$  or 5%, whichever is greater, of the target alcohol concentration.

\*Uncertainty is based on fleet-wide data and is expressed to a 99.73% level of confidence ( $k=3$ ).

The instrument results before and after any adjustment are found in the associated pre and post stability checks.

## TRACEABILITY INFORMATION

This instrument was calibrated using solutions prepared by Alcohol Countermeasure Systems, Inc. (ACS). ACS prepared and certified these CRMs in accordance with ISO 17034 and ISO/ IEC 17025 Standards.

Simulator temperatures are traceable to NIST. Simulator temperatures are checked with NIST traceable digital thermometers calibrated by Precision Metrology in accordance with ISO/ IEC 17025 standards.

Dry gas control measurements are traceable to NIST through the use of CRMs supplied by an accredited CRM supplier. The supplier of dry gas standard controls prepared and certified the CRMs in accordance with ISO Guide 34 and ISO/ IEC 17025 standards.
