FLORIDA DEPARTMENT OF LAW ENFORCEMENT

GOVERNOR SCOTT: All right. Now I would like to recognize Rick Swearingen with the Florida Department of Law Enforcement.

COMMISSIONER SWEARINGEN: Good afternoon. The Department has four agenda items for you today. First are the minutes of the August 2nd, 2016, Cabinet meeting. I would respectfully request approval of those minutes.

GOVERNOR SCOTT: Is there a motion to approve?

ATTORNEY GENERAL BONDI: So moved.

GOVERNOR SCOTT: Is there a second?

CFO ATWATER: Second.

GOVERNOR SCOTT: Any comments or objections?

(NO RESPONSE).

GOVERNOR SCOTT: Hearing none, the motion carries.

COMMISSIONER SWEARINGEN: The next item is the Department's fiscal year '17/'18 legislative budget request. The spreadsheet you have is a summary of our legislative funding priorities for fiscal year '17 and '18.

The total request is 20 million, representing a 7% increase to our current budget. While the

1 fiscal totals may change slightly as we finalize
2 our cost estimates over the next month, the
3 priorities should remain the same.

4 About 12 and a half million of the request is
5 general revenue, and nine and a half million is
6 trust funds. The Department feels confident that
7 some of these requests could be shifted away from
8 GR and into our operating trust fund. I believe
9 our request identifies areas of significant need,
10 and is consistent with my priorities, which I will
11 discuss later as part of my annual performance
12 review.

13 The requested items fall into three main focus
14 areas: Enhancing domestic security, intelligence
15 and investigations, and allocating assets to task
16 forces; Number 2, improving retention, recruitment,
17 and development of members; and third, maintaining
18 and updating Department infrastructure and
19 technology.

20 I can go through each of them separately if
21 you want, or --

22 GOVERNOR SCOTT: No, let's open it up for
23 questions if that's all right.

24 COMMISSIONER SWEARINGEN: Okay.

25 ATTORNEY GENERAL BONDI: I've reviewed it.

1 GOVERNOR SCOTT: Okay. Are there any
2 questions on the legislative budget request?

3 COMMISSIONER PUTNAM: I am pleased to see
4 the -- taking elements of antiterrorism legislation
5 that historically have been left to federal statute
6 and rolling it into the state that is additional --
7 that represents an additional arrow in the quiver
8 of investigators to be partners in responding to
9 this rising threat to Floridians and to all
10 Americans.

11 And so I'm a little surprised it hasn't
12 already been done. I'm glad that you recognized it
13 and are correcting that, because I think the
14 capacity that that leverage is as a force
15 multiplier for law enforcement is very important.

16 COMMISSIONER SWEARINGEN: Absolutely.
17 Thank you, Commissioner.

18 I was a little surprised myself when I looked
19 at this. I thought Florida might be on the cutting
20 edge, and there are several states that already
21 have similar statutes, so I was a little bit
22 surprised. But I think if you listen to our
23 federal partners, Director Comey with the FBI has
24 said many, many times over the last year, they
25 cannot do this on their own, and so we have to do

1 more.

2 I was in Orlando after the Pulse shooting, the
3 morning after the shooting, and I was there for
4 that entire week. I went to many funerals with the
5 Governor. I went to the morgue. We can never let
6 that happen again here in Florida, so I will do
7 everything in my power to make sure that doesn't
8 happen, and I think these positions will help us to
9 do that.

10 GOVERNOR SCOTT: The reality is everybody has
11 got to be involved, every citizen. If you look at
12 what just happened in New York --

13 ATTORNEY GENERAL BONDI: That's right.

14 GOVERNOR SCOTT: -- we all have to start
15 watching out. Anything that looks unusual, whether
16 we like it or not, we need to call law enforcement.
17 That's their job, and they want to protect us. We
18 have a great team of law enforcement, and we're at
19 a 45 year low; but they can't do their job without,
20 you know, more people calling.

21 COMMISSIONER SWEARINGEN: You're exactly
22 right, Governor. The incidents in New York and
23 New Jersey, had it not been for someone calling in
24 a suspicious item, those bombs would have gone off
25 during the race, which would have been similar to

1 the Boston marathon, who knows how many people
2 would have been injured. The same with, you know,
3 when he was captured, somebody saw a sleeping guy
4 on a stoop.

5 GOVERNOR SCOTT: I know, isn't that
6 remarkable, they even recognized him?

7 COMMISSIONER SWEARINGEN: Called it in, so --
8 we're reinvigorating our See Something, Say
9 Something Campaign here in Florida.

10 And Governor, you're exactly right. Citizens,
11 if you see something, say something; you have to
12 call. You know, we hear so many times after one of
13 these things: Somebody knew something, somebody
14 saw something, somebody heard something and they
15 didn't report it because they were afraid they'd be
16 labeled a racist, an Islamophobe, or crazy for just
17 being suspicious.

18 If you see something that in your gut you feel
19 is wrong, you have to say something. So I echo
20 your sentiments, Governor.

21 GOVERNOR SCOTT: Attorney General, did you
22 want to say something?

23 ATTORNEY GENERAL BONDI: Wasn't it a homeless
24 person, Commissioner, who found the suitcase?

25 COMMISSIONER PUTNAM: They discovered the

1 second --

2 ATTORNEY GENERAL BONDI: The suitcase? It was
3 a homeless person.

4 COMMISSIONER PUTNAM: The pipe bombs.

5 COMMISSIONER SWEARINGEN: Yes, ma'am.

6 GOVERNOR SCOTT: Okay.

7 ATTORNEY GENERAL BONDI: Vigilant.

8 GOVERNOR SCOTT: All right. So let's take --
9 is there a motion on the legislative budget
10 request?

11 COMMISSIONER PUTNAM: So moved.

12 GOVERNOR SCOTT: Is there a second?

13 ATTORNEY GENERAL BONDI: Second.

14 GOVERNOR SCOTT: Florida law requires the
15 Governor to independently submit budget
16 recommendations. Accordingly, I am abstaining from
17 the vote on this item. The record should reflect
18 my abstention.

19 Any other comments or objections?

20 (NO RESPONSE).

21 GOVERNOR SCOTT: Hearing none, the motion is
22 approved with one abstention.

23 So on Highway Safety and FDLE, the staff is
24 going to email the scores to everybody, okay?

25 COMMISSIONER SWEARINGEN: All right.

1 Thank you.

2 So my third item is the Department's 2017
3 legislative proposal. We plan to propose three
4 pieces of legislation this year. First, we plan to
5 propose changes to the basic abilities test. This
6 test is provided to law enforcement and
7 correctional applicants prior to entering the basic
8 recruit training program.

9 The proposed language will require the
10 Department to develop and administer a single basic
11 skills test for all law enforcement and corrections
12 applicants across the state. This test is
13 currently offered by three different vendors
14 statewide, resulting in significant inconsistencies
15 in content and cost.

16 Second, we plan to propose language that
17 criminalizes certain terrorism-related activities
18 at the state level to provide Florida's
19 law enforcement authorities with a series of tools
20 to hopefully prevent future terrorist activities.
21 Our current threat environment has seen a vast
22 expansion in an evolution of terrorist-related
23 threats in recent years. It is imperative that our
24 law enforcement officials have similar authority to
25 investigate and prosecute criminal matters

1 concerning domestic security.

2 The proposed provisions aim to
3 constitutionally -- aim to be constitutionally
4 sound and assure a balance between providing
5 greater capabilities to law enforcement while
6 protecting the Constitutional Rights of our
7 citizens. Much of the proposed language stems from
8 the tools used by Federal agencies and prosecutors
9 in attacking terrorism.

10 And third, as you know, the Department is
11 charged with investigating use of force and death
12 investigations in Department of Corrections
13 facilities. An important part of these
14 investigations are the inmates' medical records.
15 Currently there are three ways our investigators
16 may obtain this information: Written consent,
17 subpoena with notice, and search warrant.

18 Each of the three significantly inhibits our
19 ability to conduct efficient and effective
20 investigations. The proposed language would allow
21 FDC staff to provide inmate medical or treatment
22 records to our investigators for official purposes
23 only.

24 I'm happy to answer any questions about
25 Item 3.

1 GOVERNOR SCOTT: Are there any questions?

2 (NO RESPONSE).

3 GOVERNOR SCOTT: Is there a motion on the
4 third item?

5 COMMISSIONER PUTNAM: So move.

6 GOVERNOR SCOTT: Is there a second?

7 CFO ATWATER: Second.

8 GOVERNOR SCOTT: Florida law requires the
9 Governor to independently review legislation upon
10 passage. Accordingly, I'm abstaining from the
11 vote. The record should reflect it.

12 Any other comments or objections?

13 (NO RESPONSE).

14 GOVERNOR SCOTT: Hearing none, the motion is
15 approved with one abstention.

16 COMMISSIONER SWEARINGEN: Thank you.

17 My final item is the annual performance report
18 and leadership assessment and contracts over
19 100,000 for April 1st through June 30th, 2016.

20 As part of the Cabinet governance process, we
21 identified nine performance accountability measures
22 that would help gauge Agency performance.

23 Over the past year, we've provided quarterly
24 status updates on these measures. Our annual
25 performance was pretty consistent with those

1 updates achieving five for five of our measures;
2 fours for two of the measures; and Performance
3 Measures 4 and 5, both indicators of information
4 services performance, was rated as average, or
5 three.

6 The standard with which we handle criminal
7 history record checks, Measure Number 4, was
8 negatively impacted by an unexpected increase in
9 firearms purchase program checks this year. That
10 was following Pulse.

11 In fiscal year '15/'16, the Department
12 processed over three and a half million checks,
13 almost 1 million for gun purchases. That's about
14 180,000 more checks for gun purchases than the
15 previous year. Most of this increase occurred
16 during the second half of the year.

17 And regarding Measure 5, the standard to
18 process fingerprints was impacted by those
19 instances in which records coming to us are not
20 electronic. Most of the fingerprints we receive
21 now are digital and electronic; however, there are
22 some that still send them in and require us to do a
23 manual review.

24 As a result, our members must manually
25 research the data to make or deny an identity. Of

1 the 700,000 searches conducted last year, only
2 about 20,000 exceeded the 10-minute standard.
3 Still, we averaged less than five minutes overall.

4 As we digitize more historic fingerprints,
5 this measure can be expected to improve. I am
6 happy to report one of the fives received was for
7 the percentage of customers with a positive service
8 rating. This was a new measure.

9 In April we conducted an online survey of the
10 state's 403 police departments, sheriff's offices,
11 state attorneys, and state law enforcement
12 agencies; 48% responded, and 97% of those expressed
13 a positive service rating for FDLE. We gleaned a
14 lot of very useful information from this survey.

15 Finally, I would like to propose eliminating
16 Measure 3 for fiscal year '16 and '17 because the
17 data is tracked biannually. 10% weighting of this
18 measure would be redistributed amongst a couple of
19 other measures. We would then plan to bring it
20 back in two years.

21 If there are no questions regarding the
22 performance measures, I'd like to close with some
23 general comments regarding the past year.

24 GOVERNOR SCOTT: Everybody okay? Let's do
25 that first, and then we'll do the --

1 COMMISSIONER SWEARINGEN: In 2015 I stood at
2 this podium and provided my six-month status
3 report. At that time I indicated that I did not
4 believe I had inherited a broken agency, but I felt
5 it was time for FDLE to refocus, reprioritize, and
6 renew. That has evolved internal and external
7 actions.

8 I also identified eight priorities, both
9 short-term and long-term, including establishing
10 cyber crime capabilities; enhancing intelligence
11 and domestic security partnerships and
12 investigations; leveraging new analytical
13 capabilities to better utilize data and
14 information; allocating additional assets to public
15 safety task forces; maintaining public confidence
16 and professional standards in the character of our
17 peace officers; providing objective use of force
18 and in-custody death investigations; evaluating the
19 Department's infrastructure; updating technology
20 facilities and equipment; and improving
21 recruitment, retention, and development of members.

22 I believe we have made significant progress.
23 Last session, the Legislature allocated
24 approximately \$1.7 million for additional resources
25 to conduct use of force in-custody death

1 investigations statewide, and 4 million to help us
2 better recruit and retain our crime lab analysts.

3 I'm happy to report since that -- since July
4 when those pay raises went into effect, we have
5 rehired three of our own analysts that left us to
6 go to another lab, and three additional analysts
7 that came from other labs that are fully trained so
8 we don't have the -- whatever the timeframe in that
9 discipline would be. In biology that's up to
10 two years, so we're already seeing significant
11 progress in that.

12 Meanwhile, the immediacy and points of a
13 couple of priorities were crystallized over the
14 past year. What happened in Orlando on the morning
15 of June 12th, 2016, shook us all, it did not break
16 us; and it convinced me and my team that we can and
17 must do more to protect our state. That's why
18 increasing our counterterrorism resources,
19 improving our laws will be my Number 1 priority
20 this upcoming Session; and with your support, I aim
21 to be successful.

22 As indicated in response in the subjective
23 portion of my performance review, public safety is
24 a shared responsibility. That's how we have a
25 45-year low in our state's crime rate. The ability

1 of you and our legislators as policymakers and the
2 local chiefs, sheriffs, prosecutors, state and
3 federal criminal justice agencies across the state
4 to communicate and collaborate is key.

5 That is also something we saw in response to
6 the Orlando terrorist attack, our ability to come
7 together and rise to the challenge. I feel
8 privileged to stand here and represent the fine men
9 and women of the Department of Law Enforcement.

10 I'm happy to answer any additional questions
11 you might have about Item 4.

12 GOVERNOR SCOTT: All right. Are there any
13 questions? Commissioner.

14 COMMISSIONER PUTNAM: I don't have a question,
15 Governor, I have a comment.

16 Commissioner, to say that the events in your
17 tenure have been challenging would be an
18 understatement, and I believe that you have
19 excelled in your role. All of the things that I
20 said about the candor and Agency-wide
21 self-reflection revealed in the evaluation of
22 Highway Safety, I would also apply to yours: Your
23 emphasis on refocusing and reprioritizing and
24 renewing the mission and rebuilding the morale of
25 your agency and doing all of that in extraordinary

1 events that have befallen Florida since you've
2 become Commissioner, and you have -- your level of
3 communication with all four of us -- I mean I'm
4 making a sweeping generalization here, but as
5 revealed by your communication with me has been
6 exceptional. I mean you have recognized the
7 Cabinet role in this.

8 I have felt like you have been very accessible
9 and have communicated in a timely way with critical
10 information that we needed to know, your staff is
11 always available for follow-up, and I feel very
12 good about the trajectory that FDLE is on; and
13 Floridians can feel very good about that, not just
14 borne out in the statistics of a 45-year crime low,
15 but in knowing how swiftly and thoroughly and
16 professionally you respond to crises large and
17 small, and the partnerships that you have
18 strengthened with our local law enforcement.

19 So thank you for your good work, and keep it
20 up.

21 COMMISSIONER SWEARINGEN: Thank you,
22 Commissioner, I truly appreciate that.

23 ATTORNEY GENERAL BONDI: Just to add to that,
24 Governor, if I may.

25 And how well you and Highway Patrol work

1 together. I have not always seen that, and that's
2 amazing, and thank you for protecting all of us in
3 this state.

4 COMMISSIONER SWEARINGEN: Thank you.

5 GOVERNOR SCOTT: CFO.

6 CFO ATWATER: Thank you.

7 Commissioner, I'd like to echo the same, and I
8 really wish I'd taken a moment when -- before Terry
9 had stepped aside as well. She's still here? I
10 hope that if people will take the time to go back
11 and read what both of you have submitted to us in
12 the narrative to talk about your management, your
13 commitment, your goals, expectations, as has been
14 mentioned, very frank, the kind of candor you just
15 don't see people willing to make. Because once
16 it's written, it's for everyone to see, and y'all
17 have done that. The need for change, the
18 challenges with change, change that's coming,
19 change you've initiated, that has been very, very
20 refreshing. And so I, too, would just like to
21 express my compliments and my appreciation for your
22 leadership.

23 I would -- if you're asking, and being that
24 this is the annual, I'd certainly be happy to
25 accept, or if you're ready for us to act upon the

1 elimination of Number 3 in the coming year and to
2 distribute that 10% around, I'm looking at it and I
3 think your assessment is fine.

4 So, Governor, now or at another date -- I
5 wouldn't want him to wonder whether or not we're
6 going to accept this recommendation.

7 GOVERNOR SCOTT: So on the motion we're
8 accepting -- so you're making a motion that we
9 accept the change?

10 CFO ATWATER: Uh-huh.

11 GOVERNOR SCOTT: Is there a second?

12 ATTORNEY GENERAL BONDI: Second.

13 GOVERNOR SCOTT: Okay. Any comments or
14 objections?

15 (NO RESPONSE).

16 GOVERNOR SCOTT: Hearing none, the motion
17 carries.

18 I think all of us appreciate, Rick, that
19 you're accessible, you take the job seriously,
20 you've built a -- you have an outstanding team that
21 you work with, and you're going to do everything
22 you can to keep us safe.

23 But we're in a tough time in this world, lots
24 of people that want to do mean things to us, and if
25 all of us, not just FDLE and Highway Safety and

1 sheriff departments and police departments, if we
2 don't all understand that there's a lot of people
3 who want to do evil things to us, we're going to
4 get hurt again.

5 Anybody that was around the Pulse attack, it's
6 devastating what happened to those families, so I
7 don't -- none of us want that to ever happen again.

8 But thank you very much for all of your hard
9 work.

10 COMMISSIONER SWEARINGEN: Thank you, Governor.
11 And I truly appreciate the support of all four of
12 you, and this truly goes to my team. I say this
13 every time, not to insult any other state agency,
14 but I truly work for the best state agency, and we
15 have the greatest state employees in the state, so
16 thank you all.

17 GOVERNOR SCOTT: Thanks.

18

FLORIDA DEPARTMENT OF LAW ENFORCEMENT 2017 LEGISLATIVE PROPOSAL – UPDATE

Internet Identifiers. Internet identifiers are reported as part of the sexual offender and predator registration requirements pursuant to the Adam Walsh Act and in accordance with the guidelines provided by the US Department of Justice's Office of Sexual Offender Sentencing, Monitoring, Apprehending, Registering and Tracking. Last year, the Legislature passed HB 1333 / SB 1662 (Chapter 2016-104, LOF) regarding registration requirements of sexual offenders and predators. It included expanding the definition of Internet identifiers and required collection of the Internet identifiers associated website URL or software application.

In Sept. 2016, the US District Court for Northern District of Florida issued a preliminary injunction preventing the language from going into effect on Oct. 1, 2016. The court suggested the language was overbroad and vague. The requirement for sexual offenders and predators to register their Internet identifiers and email addresses has been an important tool for law enforcement in combatting the exploitation of minors. Should the ability to collect this information be enjoined, it would significantly impact an essential tool for law enforcement to combat on-line sexual exploitation of children. This proposed legislation will consist of two parts:

- (1) Public records exemption to amend access to Internet identifier and email address registration information to ensure public safety purposes are preserved and constitutionality is maintained.
- (2) Language to clarify the definition of Internet and provide a new definition of social Internet communication to further clarify the scope of existing registration requirement language.
