Drone Replacement Program
FAQs
(revised 07.18.2024)**

1. How do I apply for funding?

Florida law enforcement agencies (LEAs), fire service providers, ambulance crews, or other first responders may apply for the program by submitting an executed “Drone Replacement Program Financial Assistance Agreement”. This agreement must be signed by the agency Chief Official (Sheriff, Chief of Police, etc.) to be considered valid.

2. If we participated in the program last year and only received reimbursement for the current value of the noncompliant drone, are we able to receive additional reimbursement for the purchase of our compliant drone under the new program guidelines?

Yes. To request supplemental funding to your FY23-24 award, complete the [Drone Program Supplemental Funding Request](#) and email it to tennillerobinette@fdle.state.fl.us.

3. If we participated in the program last year and have additional noncompliant drones to relinquish, do we need to execute a new agreement?

No. Please complete a new Drone Certification Form and check the “additional drones (FY24-25)” box, have the form signed by the Chief Official, and email it to tennillerobinette@fdle.state.fl.us.

4. If we participated in the program last year, and purchased a cheaper replacement drone, are we able to turn that drone in and get more funding for a more expensive model?

No. This program only allows for the replacement of noncompliant drones. We cannot provide funding for replacing compliant drones.

5. How many replacement drones are we allowed to purchase with grant funds?

The new guidelines allow a drone-for-drone reimbursement model. If the participating agency turns in two drones, the participating agency may receive funds to cover the cost of purchasing two compliant drones.

6. How much can we be reimbursed for the purchase of a compliant drone?

This program will provide up to \$25,000 per compliant drone purchased, including operationally necessary accessories.

7. We received donated drones. Are we eligible for this program?

No. Documentation of the purchase of the noncompliant drone is required. A donated drone will not have purchase documentation (invoice, proof of payment, etc.).

8. We do not have a drone to relinquish. Are we eligible for this program?

No. This program is a buy-back style program requiring participating agencies to relinquish the noncompliant drone to FDLE.

FAQs
(revised 07.18.2024)**

9. How do we know if our drone is at its end-of-life?

If you were intending to replace the drone in your fleet PRIOR to the new requirements for governmental drone use in 2021-22, it is likely end of life.

10. Where do I send my noncompliant drone?

FDLE is accepting drones at two locations – Tallahassee and Tampa. Participating agencies are responsible for contacting the Point-of-Contact from either region below and scheduling an appointment to drop off the noncompliant drones **in person.**

Appointments may be scheduled Tuesdays (9:00AM – 5:00PM EST) and Thursdays (1:00PM – 5:00PM EST).

Tallahassee (TROC) 2331 Phillips Road Tallahassee, FL 32308	Tampa (TBROC) 4211 North Lois Avenue Tampa, FL 33614
<u>Point of Contact (POC)</u> Robert Lyons 850-410-7419 RobertLyons@fdle.state.fl.us	<u>Point of Contact (POC)</u> Corey Monaghan 813-878-7887 CoreyMonaghan@fdle.state.fl.us <u>Alternate POC</u> Steve Dressler SteveDressler@fdle.state.fl.us

11. Can I mail my drone in lieu of in-person drop off?

No. FDLE cannot accept relinquished drones via post-mail.

12. What documentation is required to relinquish my drone(s)?

Participating agencies must prepare a “Drone Certification Form” to be provided to the FDLE POC when relinquishing the drone(s). This form must be signed by the participating agency Chief Official (Sheriff, Chief of Police, Fire Chief, etc.) to be considered valid.

13. The entire Drone ID will not fit in the appropriate location on the Certification Form. How should I proceed?

Drone IDs can be long serial numbers. If the entire number will not fit in the space provided please enter the last 10 digits.

14. What drone components ARE required to be relinquished with each drone?

The only thing to be relinquished with the drone is the frame/body. No controllers, batteries, accessories, etc. shall be turned in with the drone.

FAQs
(revised 07.18.2024)**

15. We have additional lithium batteries. How are we supposed to dispose of them?

FDLE recommends using <https://search.earth911.com/> to search for hazardous waste disposal options in your area.

16. The program is first-come, first serve. I cannot drop everything and deliver my drone to one of the in-person locations immediately. What are my options to ensure my agency receives funding under this program?

FDLE's Grant Manager will earmark funds for any participating agency who provides the executed agreement and the properly executed (signed by chief official) drone certification form. However, reimbursements will not be made until the Grant Manager receives the executed form signed by the FDLE POC indicating the drone has been relinquished and all documentation required for the compliant drone purchase as identified in the Recipient's Responsibilities section of the agreement.

17. Can I partner with another law enforcement agency to coordinate the delivery of my noncompliant drone to one of the FDLE locations?

As long as the Drone Certification Form is completed and signed by the Chief Official of your agency, an agency representative does not have to be present to relinquish the drone(s).

18. My agency purchased a drone back when we were required to shelf them. Are we eligible to apply for this funding and recoup the costs of the new compliant drone?

FDLE understands some participating agencies may have quickly replaced their drone fleet. As such, FDLE will allow funds received for the relinquished drone to off-set the purchase of the new drone(s) provided the following conditions are met:

- The purchase occurred after January 1, 2022; and
- the new drone is compliant with all provisions of Rule 60GG-2.0075, Florida Administrative Code.

The participating agency will need to complete the "Reimbursement Request (Option 1)" form, and provide all required documentation, to the FDLE Grant Manager to receive the payment.

19. My agency does not have the budget authority to go out and purchase a new, compliant drone. What options are available for us to participate in this program?

FDLE understands some participating agencies may not have the budget authority to replace the noncompliant drones. FDLE will allow participating agencies to request a cash advance for their funding; however, in order to approve the release of advance funds, the agency must provide to the FDLE Grant Manager the following documentation: (1) a completed Cash Advance Request (Option 2) form, (2) a valid, executed PO, and (3) a current quote for the new drone to be purchased. Advanced funds must be spent on the compliant drone within 30 days of receipt. The agency must provide the invoice and proof of payment within 45 days or the advanced funds must be refunded to FDLE.
