## **Program Description**

The State of Florida, Department of Law Enforcement (FDLE) has received an award for \$181,978 under the Protecting Inmates and Safeguarding Communities Discretionary Grant Program from DOJ's Office of Justice Programs (OJP) Bureau of Justice Assistance (BJA). This Notice of Funding Opportunity seeks subrecipient applications for funding Prison Rape Elimination Act (PREA) Implementation projects for local criminal justice agencies. This program will be used to assist efforts to establish "zero tolerance" cultures related to sexual abuse and harassment in confinement facilities, including jails, police lockups, prisons, juvenile facilities, and community confinement facilities.

## **Program Strategy and Purposes**

FDLE's Office of Criminal Justice Grants (OCJG) administers PREA funds under the Justice Assistance Grant (JAG) program for the State of Florida. These funds shall be used to assist states and local governments in carrying out activities that address one or more of the major provisions of the PREA standards, which include:

- General prevention planning
- Supervision and monitoring
- Staffing of juvenile facilities
- Juveniles in adult facilities
- Cross-gender searches and viewing
- Training and education
- Screening
- Reporting
- Responsive planning
- Investigations
- Discipline
- Medical and mental health care
- Grievances
- Lesbian, gay, bisexual, transgender, intersex (LGBTI), and gender nonconforming inmates
- Inmates with disabilities and limited English proficiency (LEP)

BJA's FY 2017 PREA competitive program, *Strategic Support for PREA Implementation in Local Confinement Facilities Nationwide*, outlined a number of allowable uses of funds for site-based strategic implementation plans. These uses are also allowable projects supported by PREA Reallocation funds and include:

- Initiatives related to leadership and organizational culture change (Note: It is BJA's expectation that the support provided to all the local agencies involved in this program will prioritize efforts to implement and enhance zero tolerance cultures related to sexual abuse and sexual harassment in confinement facilities)
- PREA policy and practice revision and implementation;
- Preventative equipment and technology enhancements (Note: Funding may be used to purchase equipment and supplies [e.g., rape kits, privacy screens, etc.]. In cases where program funding is used on equipment and supplies, these expenditures must be part of a larger, comprehensive implementation plan that focuses on implementing or enhancing a zero tolerance culture in confinement facilities, and achieving compliance with the PREA Standards.);
- Inmate, detainee, and/or resident education related to PREA;

- Sexual abuse and sexual harassment victim support services such as the integration of victim-centric and trauma-informed strategies to equip staff, investigators, external providers, and medical and mental health practitioners to identify trauma and its symptoms, minimize re-traumatization, and provide services that are sensitive to the individualized needs of victims who are inmates, residents, and/or detainees;
- Data collection, performance measurement, and evaluation related to efforts to prevent, detect, and respond to sexual abuse and sexual harassment in confinement facilities;
- Planning, analysis, and training focused on enhancing staff support and training related to the PREA Standards; and,
- Preparing for and conducting PREA audits.

Maximum coordination between the subrecipient and its implementing agency, if different, is required to meet PREA program requirements. FDLE requires that agencies applying for PREA funds reach consensus concerning the expenditure of the PREA funds, including the projects to be implemented and the agency responsible for such implementation.

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

## **Priority Areas for Funding**

OJP wishes to ensure that recipients are aware of areas of national focus and priority, and to encourage recipients to maximize the effective use of funds. The following is a list of key priorities:

### Evidence-Based Programs or Practices

OJP places a strong emphasis on the use of data and evidence in policy making and program development in criminal justice.

OJP considers programs and practices to be evidence-based when their effectiveness has been demonstrated by causal evidence, generally obtained through one or more outcome evaluations. Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of a change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which OJP considers a program or practice to be evidence-based.

Applicants are strongly encouraged to provide practices and services that have a demonstrated evidence base and that are appropriate for the target population. Applicants should identify the evidence-based practice being proposed for implementation, identify and discuss the evidence that shows that the practice is effective, discuss the population(s) for which this practice has been shown to be effective, and show that it is appropriate for the proposed target population. Applicants can find information on evidence-based treatment practices in the SAMHSA's *Guide to Evidence-Based Practices* available at [www.samhsa.gov/ebpwebguide](http://www.samhsa.gov/ebpwebguide).

## **Amount and Length of Award**

PREA awards are typically for a period of six months to one year. The beginning and end dates of the subgrant period and the subaward amount are determined during the application review process. OCJG will award projects based on a competitive basis.

OCJG will allocate a portion to each eligible applicant who meets the criteria and performs well on the Application Scoresheet.

## **Match**

The PREA program does not require matching funds.

## **Application Access and Deadline**

Applications must be submitted via the FDLE [Subaward Information Management ON-line](#) (SIMON) grant management system by **April 13, 2018**. In addition, please mail two hard copies of the application with original signature pages to FDLE by **April 20, 2018**. When submitting your application in SIMON, please use announcement code **PREA1718**.

## **Registration Requirements**

To apply for PREA funds in SIMON, an organization and its users must be registered in SIMON and have a Data Universal Numbering System (DUNS) number. The organization must also be registered with the U.S. Federal Government's System for Award Management (SAM).

This requirement also does not apply to items that serve only to advertise an event or the availability of services. If in doubt as to whether this requirement applies to your project, please contact FDLE's grant's office.

## State and Federal Transparency

Subaward agreements and information supplied to the Office of Criminal Justice Grants for grant management and payment purposes will be used to report to the following mandatory state and federal

transparency systems.

### **Federal Funding Accountability and Transparency Act (FFATA)**

The intent of the Act is to empower every American with the ability to hold the government accountable for each spending decision. The end result is to reduce wasteful spending in the government. The FFATA legislation requires information on federal awards (federal financial assistance and expenditures) be made available to the public via a single, searchable website, which is [www.USASpending.gov](http://www.USASpending.gov).

### **Florida Accountability and Contract Tracking System (FACTS)**

This grant agreement, all corresponding information and a copy of the grant document, is provided to FACTS to meet requirements under Chapter 2013-54 and 2013-154 Laws of Florida.

### **Exemption from FACTS**

The SIMON grant management system allows for partial or complete contract exemption from FACTS for those agreements containing information exempt from public records. Please be aware, in the event that your agency's submission contains confidential and/or exempt information prohibited from public dissemination under Florida's Public Records Law, Chapter 119, Florida Statutes, the subrecipient agency bears the responsibility for applying proper redactions. Otherwise, any and all records submitted may be released without redactions.

## **Creating the Application**

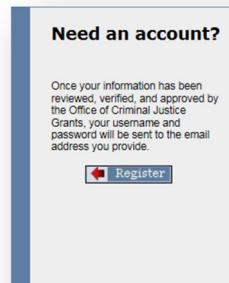

**Failure to follow application instructions may result in missing information that could cause the return of your application OR the inclusion of a special condition at the time of award.**

Applications will be submitted via FDLE's online grants management system, SIMON, which can be accessed at <http://simon.fdle.state.fl.us>. This website includes a Help section containing a detailed user manual and frequently asked questions. Please review this manual before beginning the application process in SIMON.

To provide ample time to submit your application, please complete the following steps as soon as possible. (If your agency already has a user account and the organization's subrecipient and implementing agency exists in SIMON, please disregard Steps 1 and 2).

### **Step 1: Need Username**

Any member of a subaward agency who does not have a SIMON user account can create one by clicking "Register" and completing the request form. Users will receive an email containing the SIMON username and password. Only the individual whose email address appears in the request will receive the username and password email.
