

Be Private

Never give out things like...

- Your address
- Your phone number
- Your school name
- Your picture

Always use a neutral user name...

Make sure your user name does not say too much about you.

Good Idea

TheAvenger
SpideySense
Overwhelm
BossAardvark

Bad Idea

MiamiGurl12
TallyBoy8
MisPriss98

REMEMBER!!!

You never know who the other person is!

Be Courteous

The Grandmother Test...

What would your grandmother say if she saw what you did?

The Real-Life Test...

If you would not do it in real life, don't do it online.

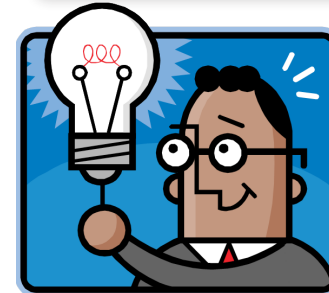

The Real-You Test...

Don't pretend to be someone you're not.

Be Smart

Ask yourself...

Does it sound too good to be true?

Why does this person want to meet me?

Why do they want my picture?

Why do they need my user name and password?

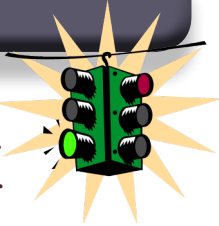

Does this make me uncomfortable?

Am I acting like a bully?

Four steps for keeping safe online.

Use Good Passwords

- Don't use easy words.
- Make it hard to guess.
- Only tell your parents.

Keep Personal Information PRIVATE

Don't Be Mean

Remember the
"Grandmother"
test

Be Smart

Ask questions...
You never know who
the other person is.
