*Over the course of the presentations regarding MSDHS site security, 911 calls, the law enforcement response, and the medical response, audio recordings, videos and photographs will be used because it is important that commissioners hear and see the evidence firsthand to gain a full and accurate understanding of what occurred. Videos and photographs have been redacted and victims' images will not be shown. Non-victim voices will be heard and non-victim images may be seen. Despite redaction, family members and members of the public may find some of the recordings and/or photographs troubling and they should decide on their attendance accordingly.
