From the Chairman of the Medical Examiners Commission

On behalf of the Medical Examiners Commission I am pleased to submit this annual report to each of our district medical examiners. While the Medical Examiners Commission is no longer required to submit an Annual Workload Report to the Governor and Legislature, the Commission decided to continue to submit this report to the districts as it provides valuable information.

The Medical Examiners Commission welcomed the Honorable Angela Corey, State Attorney, 4th Judicial Circuit, to the Commission in July, 2011. Ms. Corey replaces Jerry Hill, State Attorney for the 10th Judicial Circuit, whose term expired.

The Report of Drugs Identified in Deceased Persons continues to include highly sought after information. This unique report continues to display the unfortunate yet increasing abuse of both prescription and illicit drugs. Furthermore, the report assists Florida's state and local agencies in allocating and focusing their resources.

The Medical Examiners Commission continued in a joint initiative to identify unidentified deceased cases in Florida. The Florida Department of Law Enforcement and the 24 medical examiner districts are working together to resolve almost 700 unidentified deceased cases reported in our state. With new technology and advances in forensic science, the initiative is constantly evolving. This Commission will continue to encourage participation and provide access to resources to reduce the backlog of cases.

Thank you for your professional commitment to providing the state of Florida with high quality medico-legal death investigative services.

Bruce A. Hyma, M.D.
Chairman, Medical Examiners Commission

INTRODUCTION

The Medical Examiners Act, Chapter 406, Part I, Florida Statutes, was enacted by the 1970 Legislature in order to establish minimum and uniform standards of excellence in statewide medical examiner services. This report is submitted to illustrate the direction taken by the Medical Examiners Commission during 2011 to ensure the maintenance of an effective and viable program of medical examiner services throughout Florida.

DISCIPLINARY ACTIONS

In 2011, Commission staff received seven formal written complaints against district medical examiners or their associate medical examiners. Most of these complaints alleged misconduct regarding the findings of cause and/or manner of death, with one alleging failure to provide “reasonable care.” All of these cases were found by staff to be not legally sufficient, without need for a Probable Cause Panel.

VIOLENT CRIME AND DRUG CONTROL COUNCIL

Through existing partnerships with federal, state, and local law enforcement, the Violent Crime and Drug Control Council (VCDCC) continues to play an integral role in supporting initiatives to protect Florida’s citizens, visitors, property and communities. Since the Council’s inception in 1993, it has maintained a reputation for initiating and supporting legislation to improve the overall quality of life for the state of Florida and its citizens. The Council is composed of 14 members, including a medical examiner representative, which has been vacant awaiting gubernatorial appointment since 2007. The Council is routinely briefed on the semi-annual and annual Medical Examiners reports regarding drug-related deaths.

ANNUAL EDUCATIONAL CONFERENCE

The 38th Annual Educational Conference was held June 22-24, 2011 at the PGA National Resort and Spa in Palm Beach Gardens, Florida. The conference was jointly sponsored by District 15 Medical Examiner Michael Bell, M.D., the University of Florida College of Medicine, and the William R. Maples Center for Forensic Medicine.

METHODOLOGY

Death statistics in Florida reflect the total number of certificates of death recorded in 2011 by local county registrars of vital statistics. These include both resident and non-resident deaths. This data was obtained from the Office of Vital Statistics in the Department of Health. Rates related to deaths in this report are medical examiner cases per every 1,000 recorded deaths.

Population estimates (as of April 1, 2011) for the state of Florida were provided by the Finance & Economic Analysis Section of the Executive Office of the Governor. Unless otherwise noted, rates related to population in this report are deaths for every 100,000 residents.

Information concerning autopsy numbers and other workload distribution figures are supplied by each of the 24 medical examiner districts on the Annual Report Workload Data Form. These forms are filed annually with the Medical Examiners Commission staff in July of each year. (See Tables I and Ia).

STATE CHILD FATALITY REVIEW COMMITTEE

The State Child Fatality Review Committee reviewed 147 cases in 2011, representing 136 deaths of infants and children less than 18 years of age that occurred in 2010, and 11 deaths that occurred in 2009 that had been verified by the Department of Children and Families (DCF) as being related to child abuse or neglect. Children five years old and younger comprised 88% of the cases reviewed. In 41 cases (30%), the child had previous involvement with the Department of Children and Families, and six (4%) of the child death cases had an open report at the time of the child's death.

Florida's data continue to parallel national statistics that indicate a prevalence of neglect-related deaths. Out of 147 deaths, 38% were abuse-related, while 85% were neglect related. Seventy nine deaths were classified as accidental. Drowning continued to be a major cause of accidental child deaths in Florida with 31% of accidental deaths caused by drowning. There was a decrease in the number of infant deaths related to the child's sleep environment, with 21 deaths attributed to unsafe sleeping conditions, which is half the number reported the previous year.

Five children died in motor vehicle crashes. Four children died of hyperthermia after having been left unattended in a vehicle. This was a significant decrease from the nine deaths of children left in vehicles in 2009, and it is believed the media attention given to these deaths and to related criminal prosecutions continues to work towards reducing this type of death. Nine of the deaths were classified as homicides.

The Committee's 2011 key recommendations were:

#1 Continue and enhance statewide public awareness and education efforts.

#2 Amend § 383.402(1), F.S. to expand the state Child Abuse Death and Review Team's (CADR) authority to review all Florida child deaths.

#3 Amend statutory due date of CADR's annual report to March 31st.

#4 Invest in successful prevention programs.

The Committee also recommended continuation of training for professionals and parents in unsafe sleeping environments, drowning prevention and investigations, coping with crying, the role of substance abuse, and death scene investigations.

Barbara C. Wolf, M.D., Interim District 5 Medical Examiner represents the Medical Examiners Commission on this committee.
